CONTENTS

EDITORIAL MESSAGES	i
TOPICAL SURVEY	
Peter Fletcher, Karel Hrbacek, Vladimir Kanovei, Mikhail G. Katz, Claude Lobry, and Sam Sanders	
Approaches to Analysis with Infinitesimals Following Robinson, Nelson, and Others	193
RESEARCH ARTICLES	
Jonathan M. Fraser, Eric J. Olson, and James C. Robinson	
Some Results in Support of the Kakeya Conjecture	253
Michał Korch	
A Generalized Egorov’s Statement for Ideals	269
Redouane Sayyad	
The McShane Integral in the Limit	283
Grigori A. Karagulyan	
On Exceptional Sets of the Hilbert Transform	311
Franklin R. Astudillo-Villaba, René E. Castillo, and Julio C. Ramos-Fernández	
Multiplication Operators on the Spaces of Functions of Bounded p -Variation in Wiener’s Sense	329
Ivan Werner	
On the Carathéodory Approach to the Construction of a Measure	345
Vladimir Kanovei and Mikhail Katz	
A Positive Function with Vanishing Lebesgue Integral in Zermelo–Fraenkel Set Theory	385
Badreddine Meftah	
On Some Gamidov Integral Inequalities on Time Scales and Applications	391
INROADS	
Iwo Labuda	
Measure, Category and Convergent Series	411
Hajrudin Fejzić	
A Note on Monotonicity Theorems for Approximately Continuous Functions	429
