

# ROCKY MOUNTAIN JOURNAL OF MATHEMATICS

Volume 35

2005

Number 2

---

## CONTENTS

Extensions, Dilations and Functional Models of Singular Sturm-Liouville Operators BY BILENDER P. ALLAHVERDIEV .....	367
Sharp Inequalities for the Hurwitz Zeta Function BY HORST ALZER .....	391
Counting Generalized Orders on Not Necessarily Formally Real Fields BY RON BROWN .....	401
Quantum Projective 3-Spaces Which Embed Weighted Quantum Planes BY GEOFFREY D. DIETZ, RYAN S. HIGGINBOTTOM AND D.R. STEPHENSON .....	415
Approximation of Sobolev-Type Classes with Quasi-Seminorms BY Z. DITZIAN, V.N. KONOVALOV AND D. LEVIATAN .....	445
Going-Down Implies Generalized Going-Down BY DAVID E. DOBBS AND ANDREW J. HETZEL .....	479
Harmonic Shears of Elliptic Integrals BY MICHAEL DORFF AND J. SZYNAL .....	485
Transcendental Limit Cycles Via the Structure of Arbitrary Degree Invariant Algebraic Curves of Polynomial Planar Vector Fields BY ISAAC A. GARCÍA .....	501
Analytic Functions with $H^p$ -Derivative BY DANIEL GIRELA AND MARÍA AUXILIADORA MÁRQUEZ .....	517
The Transcendence of Certain Infinite Series BY JAROSLAV HANČL AND PAVEL RUCKI .....	531
Nimlike Games with Generalized Bases BY ARTHUR HOLSHOUSER AND HAROLD REITER .....	539
A System of Pellian Equations and Related Two-Parametric Family of Quartic Thue Equations BY BORKA JADRJEVIĆ .....	547

**CONTENTS CONTINUED ON LAST PAGE**

A Note on Some Modular Subgroups REFIK KESKIN .....	573
Conjugacy Separability of Certain HNN Extensions of Groups BY GOANSU KIM AND C.Y. TANG .....	587
Phase Functions and Central Dispersions in the Theory of Linear Functional Equations BY JITKA LAITCHOVÁ .....	603
Lorentzian Isothermic Surfaces in $\mathbf{R}_j^n$ BY M.A. MAGID .....	627
Multilinear Trif $d$ -Mappings in Banach Modules over a $C^*$ -Algebra BY CHUN-GIL PARK .....	641
The Hyperspaces $K(X)$ BY PATRICIA PELLICER-COVARRUBIAS .....	655
Helly's Selection Principle for Functions of Bounded $P$ -Variation BY JOHN E. PORTER .....	675
Convolution and Fourier Transform over the Spaces $\mathcal{K}'_{p,k}$ , $p > 1$ BY BYUNG KEUN SOHN AND DAE HYEON PAHK .....	681
