

THE ROCKY MOUNTAIN JOURNAL OF MATHEMATICS

Volume 10

Spring 1980

Number 2

CONTENTS

Acknowledgement and Correction, Volume 9	303
Linear symplectic structures on Banach spaces By R.C. SWANSON	305
Uniform finite generation of complex Lie groups of dimension two and three By RICHARD M. KOCH AND FRANKLIN LOWENTHAL	319
Approximating maps into fiber bundles by homeomorphisms By T.A. CHAPMAN	333
Symmetric derivatives defined by weighted spherical means By M.K. KOHN	351
Composition operators on a space of Lipschitz functions By RAYMOND C. ROAN	371
The Fourier coefficients of the Bergman kernel By ANTHONY F. BADALMENTI	381
Lyapunov-type functions for nth order ordinary differential equations By J. RIDENHOUR	387
The Mehler-Fock transform of distributions By U.N. TIAWARI AND J.N. PANDEY	401
Rotating chain fixed at two points vertically above each other By MICHAEL REEKEN	409
