
CONTENTS

Survey Papers

A note on local field duality
 By KEITH PHILLIPS 433

A note on exchangeable sequences of events
 By ERIC V. SLUD 439

On A. Lax's condition of hyperbolicity
 By M. MUNSTER 443

Research Papers

Differential inequalities and the asymptotics of second order
 nonlinear differential equations
 By D. WILLETT 447

Neighborhoods, bases and continuity in fuzzy topological spaces
 By R. H. WARREN 459

Norm-decreasing isomorphisms of the trace-class algebras
 of H^* algebras
 By E.O. OSHOBI 471

Large abelian subgroups of some infinite groups, II
 By V. FABER 481

$\lambda(n, k)$ -parameter families and associated convex functions
 By S. UMAMAHESWARAM 491

On the universal compactification of a cone
 By MICHAEL FRIEDBERG 503

$\Sigma^2 H^3 = S^5/G$
 By J.W. CANNON 527

The Peirce representation of an inertial coefficient ring
 By ELLEN E. KIRKMAN 533

On coproducts of rectangular bands
 By H.E. SCHEIBLICH 539

Solution of two Volterra integral equations
 By JON C. HELTON 547

On the Hessian of the Carathéodory metric
 By JACOB BURBEA 555
