

ROCKY MOUNTAIN JOURNAL OF MATHEMATICS

Volume 41

2011

Number 5

CONTENTS

SURVEY ARTICLE: On weighted densities and their connection
with the first digit phenomenon
BY BRUNO MASSÉ AND DOMINIQUE SCHNEIDER 1395

Green's function for third-order differential equations
BY YUELI CHEN, JINGLI REN AND STEFAN SIEGMUND 1417

$S_{0,3}$ is non-ruinous
BY JOHN DONNELLY 1449

Necessary and sufficient conditions for the oscillation of a
first-order neutral differential equation of Euler form
BY KAIZHONG GUAN AND JIANHUA SHEN 1457

Left centralizers on rings that are not semiprime
BY IRVIN R. HENTZEL AND M.S. TAMMAM EL-SAYIAD 1471

Nonnil-Noetherian rings and the SFT property
BY SANA HIZEM AND ALI BENHISSI 1483

Positive existential definability of parallelism in terms of
betweenness in Archimedean ordered affine geometry
BY FRANZ KALHOFF AND VICTOR PAMBUCCIAN 1501

NCF-distinguishability by prime graph of $\mathbf{PGL}(2, \mathbf{p})$
where \mathbf{p} is a prime
BY M. KHATAMI, B. KHOSRAVI AND Z. AKHLAGHI 1523

Weak solutions for a sixth-order thin film equation
BY CHANGCHUN LIU AND YUMEI TIAN 1547

Value distribution of differences of meromorphic functions
BY KAI LIU 1567

Phase portraits and invariant straight lines of cubic polynomial
vector fields having a quadratic rational first integral
BY JAUME LLIBRE, ADAM MAHDI AND NICOLAE VULPE 1587

Coassociated primes of local homology and local cohomology
modules
BY AMIR MAFI AND HERO SAREMI 1633

CONTENTS CONTINUED ON LAST PAGE

The first cohomology group of module extension Banach algebras BY A.R. MEDGHALCHI AND H. POURMAHMOOD-AGHABABA	1641
Chen inequalities for submanifolds of complex space forms and Sasakian space forms endowed with semi-symmetric metric connections BY ADELA MIHAI AND CIHAN ÖZGÜR	1655
Divisibly norm-preserving maps between commutative Banach algebras BY TAKESHI MIURA, DAI HONMA AND RUMI SHINDO	1677
A Dirichlet analogue of the free monogenic inverse semigroup via Möbius inversion BY EMIL DANIEL SCHWAB AND GEORGE STOIANOV	1703
Carleson measures and a class of generalized integration operators on the Bergman space BY ANSHU SHARMA AND AJAY K. SHARMA	1713
One-sided L^p norm and best approximation in one-sided L^p norm BY C. YANG	1727
Increasing limit of reproducing kernels BY HYUN JAE YOO	1743
