## CONTENTS

|   |     |
|---|-----|
| SURVEY ARTICLE: An elementary illustrated introduction to simplicial sets<br>BY GREG FRIEDMAN .....   | 353 |
| On the indecomposable torsion-free abelian groups of rank two<br>BY A.M. AGHDAM AND A. NAJAFIZADEH .....                                    | 425 |
| Equivalence of real Milnor fibrations for quasi-homogeneous singularities<br>BY R.N. ARAÚJO DOS SANTOS .....                                | 439 |
| Symmetry in complex contact geometry<br>BY D.E. BLAIR AND A. MIHAI .....  | 451 |
| Eigenvalue cluster traces for quantum graphs with equal edge lengths<br>BY ROBERT CARLSON .....   | 467 |
| On the rationality of moduli spaces of pointed hyperelliptic curves<br>BY G. CASNATI .....  | 491 |
| On the topology of locally 2-connected Peano continua<br>BY M.J. CHÁVEZ, T. FERNÁNDEZ-BAYORT,<br>A. QUINTERO AND M.T. VILLAR .....          | 499 |
| Notes on new (antisymmetrized) algebras<br>BY SEUL HEE CHOI AND KI-BONG NAM .....   | 529 |
| Nondecreasing solutions of a quadratic integral equation of Urysohn-Stieltjes type<br>BY MOHAMED ABDALLA DARWISH AND JOHNNY HENDERSON ..... | 545 |
| Typically real harmonic functions<br>BY MICHAEL DORFF, MARIA NOWAK AND WOJCIECH SZAPIEL .....   | 567 |
| On the existence of zero-sum subsequences of distinct lengths<br>BY BENJAMIN GIRARD .....   | 583 |
| An inversion formula of radon transform on the product Heisenberg group<br>BY JIANXUN HE AND LIQUN WEN .....                                | 597 |

**CONTENTS CONTINUED ON LAST PAGE**

|   |     |
|---|-----|
| Globally impulsive asymptotical synchronization of delayed chaotic systems with stochastic perturbation<br>BY DANHUA HE AND LIGUANG XU .....                | 617 |
| Normal differential operators of first-order with smooth coefficients<br>BY Z.I. ISMAILOV AND M. EROL.....  | 633 |
| A different method to calculate the rank of an elliptic threefold<br>BY REMKE KLOOSTERMAN .....   | 643 |
| Planar real polynomial differential systems of degree $n > 3$<br>having a weak focus of high order<br>BY JAUME LLIBRE AND ROLAND RABANAL .....              | 657 |
| Dynamics of finite linear cellular automata over $\mathbf{Z}_N$<br>BY F. MENDIVIL AND D. PATTERSON .....  | 695 |
| Some cases of Pál-type Birkhoff interpolation on zeros of polynomials with complex coefficients<br>BY GEETA MODI, ANIL KUMAR PATHAK AND ANITA MANDLOI ..... | 711 |
| Generation of the symmetric field by Newton polynomials in prime characteristic<br>BY MAURIZIO MONGE .....  | 729 |
| Some closed-form evaluations of infinite products involving nested radicals<br>BY M.A. NYBLOM .....   | 751 |
| Improvement of a criterion for starlikeness<br>BY RÓBERT SZÁSZ, PÁL AUREL KUPÁN AND ATTILA IMRE.....  | 759 |
