CONTENTS

On Haar bases for generalized dyadic Hardy spaces  
BY HUGO AIMAR, ANA BERNARDIS AND LUIS NOWAK ..... 697

On the distributions of  $\sigma(n)/n$  and  $n/\varphi(n)$   
BY EMRE ALKAN ..... 713

Jones's polynomial for links in the handlebody  
BY KHALED BATAINEH AND MUSTAFA HAJIJ ..... 737

The completion of Euler's factoring formula  
BY RICHARD BLECKSMITH, JOHN BRILLHART  
AND MICHAEL DECARO ..... 755

Equal sums of like powers and equal products of integers  
BY AJAI CHOUDHRY ..... 763

Existence of pseudo almost automorphic mild solutions to some  
nonautonomous second order differential equations  
BY TOKA DIAGANA ..... 793

A universal survival ring of continuous functions which is not  
a universal lying-over ring  
BY DAVID E. DOBBS, RONALD LEVY AND JAY SHAPIRO..... 825

Spectral properties of the simple layer potential type operators  
BY MILUTIN R. DOSTANIĆ ..... 855

On the solutions of difference equations of order four  
BY H. EL-METWALLY, E.M. ELSAYED AND E.M. ELABBASY ..... 877

On Borel summability and analytic functionals  
BY RICARDO ESTRADA AND JASSON VINDAS ..... 895

Finite direct sums controlled by finitely many permutations  
BY NICOLA GIRARDI..... 905

CONTENTS CONTINUED ON LAST PAGE

A $q$ -analogue of modified beta operators BY VIJAY GUPTA, P.N. AGRAWAL AND DURVESH KUMAR VERMA .....	931
Positive and negative results for Einstein metrics on quotient manifolds of $S^3 \times S^5$ BY LYDIA KENNEDY .....	949
Some double binomial sums related with the Fibonacci, Pell and generalized order- $k$ Fibonacci numbers BY EMRAH KILIÇ AND HELMUT PRODINGER .....	975
Non-commuting pairs of symmetries of Riemann surfaces BY EWA KOZŁOWSKA-WALANIA .....	989
On continuity and compactness of some vector-valued integrals BY K.M. NARALENKOV .....	1015
Formal groups of $\mathbf{Q}$ -curves with complex multiplication BY FUMIO SAIRAJI .....	1023
Exponential synchronization of delayed reaction-diffusion neural networks with general boundary conditions BY PING YAN AND TENG LV .....	1037
