## CONTENTS

Expository Paper: A primer on homogenization of elliptic PDEs with stationary and ergodic random coefficient functions BY ALEN ALEXANDERIAN .....	703
Survey Article: The real numbers—A survey of constructions BY ITTAY WEISS .....	737
Survey Article: Self-adjoint ordinary differential operators and their spectrum BY ANTON ZETTL AND JIONG SUN .....	763
Nest graphs and minimal complete symmetry groups for magic Sudoku variants E. ARNOLD, R. FIELD, J. LORCH, S. LUCAS AND L. TAALMAN .....	887
Zeros of high derivatives of the Riemann zeta function BY THOMAS BINDER, SEBASTIAN PAULI AND FILIP SAIDAK.....	903
Norm estimates for functions of two non-commuting operators BY MICHAEL GIL' .....	927
Topological properties of path connected components in spaces of weighted composition operators into $L^\infty$ BY KEI JI IZUCHI, YUKO IZUCHI AND SHŪICHI OHNO .....	941
Note on Igusa's cusp form of weight 35 BY TOSHIYUKI KIKUTA, HIROTAKA KODAMA AND SHOYU NAGAOKA .....	963
Incubation periods under various anti-retroviral therapies in homogeneous mixing and age-structured dynamical models: A theoretical approach BY ARNI S.R. SRINIVASA RAO .....	973
Pseudo-hyperbolic distance and Gleason parts of the algebra of bounded hyper-analytic functions on the big disk BY DIMCHO K. STANKOV .....	1033
Existence of solutions for the generalized $p$ -Laplacian equation BY FU-HSIANG WONG, WEI-CHENG LIAN AND REN-CI LIN .....	1047
