

BIBLIOGRAPHIC NOTES

AA.VV. *Peano e i Fondamenti della Matematica, Atti del convegno, Modena 22-24 ottobre 1991*, Accademia Nazionale di Scienze Lettere e Arte - Modena - Mucchi, 1993; viii + 304pp. Fourteen papers on Peano and the work of his school on logic, foundations of mathematics (especially geometry), philosophy of mathematics and philosophy of science.

Elena AUSEJO and Mariano HORMIGÓN (editors), *Messengers of Mathematics: European Mathematical Journals (1800-1946)*, Madrid, Siglo Vientiuno de España Editores, SA & Ciudad México, Siglo Vientiuno Editores, SA, 1993. Includes individual articles on the history of various international and national mathematics journals.

Joseph BRENT, *Charles Sanders Peirce: A Life*, Bloomington/Indianapolis, Indiana University Press, 1993. Presents Peirce as a powerfully quixotic character whose scientific genius and life were continually beset by profound psychological and physical problems.

Stanisław Lesniewski, *Collected Works*. 2 vols., edited by S.J. Surma, J.T. Szrednicki, D.I. Barnett, and V.F. Rickey Nijhoff International Philosophy Series Vol. 44; Dordrecht, Kluwer, 1992.
