

# STATISTICAL SCIENCE

**a review journal of the institute of mathematical statistics**

**Volume 2**

**Number 2**

**May 1987**

## **Featuring**

**B. S. Everitt on  
STATISTICS IN PSYCHIATRY**

**E. J. Hannan on  
APPROXIMATING TIME SERIES**

**Daniel Barry and J. A. Hartigan on the  
STATISTICAL ANALYSIS OF EVOLUTION**

**Morris H. Hansen's reminiscences on the  
HISTORY OF SURVEY SAMPLING**

**and an Interview with MORRIS HANSEN**

Berkeley

J. A. Hartigan  
Yale University

Ingram Olkin  
Stanford University

**MANAGING EDITOR**

Paul Shaman  
University of Pennsylvania

**EDITORIAL ASSISTANT**

Tammy Morrow

---

The aim of *Statistical Science* is to present the full range of contemporary statistical thought at a technical level accessible to the broad community of practitioners, teachers, researchers, and students of statistics and probability.

The journal will publish discussions of methodological and theoretical topics of current interest and importance, surveys of substantive research areas with promising statistical applications, comprehensive book reviews, discussions of classic articles from the statistical literature, and interviews with distinguished statisticians and probabilists.

**SUBMISSION POLICY**

*Statistical Science* welcomes the submission of expository, review, and survey papers in all areas of the theory, methodology, and applications of statistics and probability. Articles that synthesize research that has been published in diverse sources or that has been developed from diverse points of view are especially valuable.

Four nonreturnable copies of any manuscript submitted for consideration are requested for the reviewing process. Copies should be mailed first class to:

Professor Morris H. DeGroot  
Executive Editor, *Statistical Science*  
Department of Statistics  
Carnegie Mellon University  
Pittsburgh, PA 15213

The manuscripts should be typed on  $8\frac{1}{2} \times 11$ -inch white paper, on one side only, and double-spaced throughout, including the references, with margins of at least  $1\frac{1}{2}$  inches on all four sides. Pages should be numbered consecutively. The manuscript should contain an abstract of 200 or fewer words, followed by approximately 5 or 6 key words or phrases. A short author's note providing the name, address, present position or rank, and affiliation of each author should also be included.

A condition of submission is that the manuscript has not previously been published and is not simultaneously being considered for publication elsewhere.

*Statistical Science* is copyrighted and authors will be asked to sign a copyright transfer to the IMS before publication.
