

CONTENTS

A. Durai Baskar and S. Arockiaraj:
Super geometric mean graphs 97

G. Pooranam, R. Vasuki and S. Suganthi:
Even vertex odd mean labeling of transformed trees 117

Hossein Shabani, Ali Reza Ashrafi and Modjtaba Ghorbani:
Note on markaracter tables of finite groups 133

Shusuke Matsubara and Hiroki Hashiguchi:
Approximate eigenvalue distribution for the ratio of Wishart matrices ... 141

Masamitsu Shimakura and Katsunori Sanada:
On the Hochschild cohomology ring of integral cyclic algebras 159

Taisuke Yoneyama:
An application of wave packet transform to scattering theory for Schrödinger
equations with variable coefficients 181

Nobuhiro Taneichi, Yuri Sekiya and Jun Toyama:
Improved transformation of ϕ -divergence goodness-of-fit test statistics based
on minimum ϕ^* -divergence estimator for GLIM of binary data 193
