

SUT JOURNAL OF MATHEMATICS

Volume 53, Number 2

2017

CONTENTS

- Dávid Csaba Kertész and Rezső L. Lovas:
A generalization and short proof of a theorem of Hano on affine vector fields
83
- Kouji Tahata, Ryotaro Maeda and Sadao Tomizawa:
Scaled double symmetry model and decomposition of double symmetry for
square tables 89
- A. Durai Baskar and S.Arockiaraj:
F-geometric mean labeling of graphs obtained by duplicating any edge of
some graphs 107
- Mutsuo Oka:
Remark on the roots of generalized Lens equations 107
- Hideyuki Koie, Tomohiro Itagaki and Katsunori Sanada :
On presentations of Hochschild extension algebras for a class of self-injective
Nakayama algebras 115
