

CONTENTS

K. Krishnamoorthy and Divakar Sharma: Asymptotic risk comparison of some estimators for bivariate normal covariance matrix	199
Toshiyasu Arai: An accessibility proof ordinal diagrams in intuitionistic theories for iterated inductive definitions	209
Andrzej Nowicki: Inner derivations of higher orders.....	219
Andrzej Nowicki: Higher R -derivations of special subrings of matrix rings ..	227
Zenji Kobayashi: Polynomial invariants of Euclidean Lie algebras.....	255
Akira Koyama: Coherent singular complexes in strong shape theory	261
Atsushi Shimizu: On complex tori with many endomorphisms	297
Masahisa Sato: On maximal grading of simply connected algebras	319
Akira Okabe: Some results on pseudo-valuation domains	333
Kazunori Sakano: Injective dimension of generalized matrix rings	339
Sibe Mardešić: ANR-resolutions of triads	353
Akimichi Takemura: An orthogonally invariant minimax estimator of the covariance matrix of a multivariate normal population.....	367
Masami Sakai: On CL -isocompactness	377
Akito Tsuboi: Two theorems on the existence of indiscernible sequences..	383
