| | |
|---|-----|
| Mitsuo Hoshino: On self-injective dimensions of artinian rings | 1 |
| Roberto Martínez Villa: Algebras of infinite dominant dimension | 9 |
| Shōji Ochiai: On the structure of the matrix corresponding to a finite topology..... | 21 |
| E. Gregorio and A. Orsatti: Uniqueness and existence of dualities over compact rings | 39 |
| Aleksander Grytczuk and Nikolay T. Vorob'ev: On Lockett's conjecture for finite groups..... | 63 |
| Joo Ho Kang and Hyong Gu Baik: A study on the unicellularity of some lower triangular operators | 69 |
| Akira Ohbuchi: On the higher wahl maps | 79 |
| Akio Baba: The H_∞ -wellposed Cauchy problem for Schrödinger type equations | 101 |
| Marc Coppens and Takao Kato: Weierstrass gap sequence at total inflection points of nodal plane curves | 119 |
| Mamoru Nunokawa: On a sufficient conditions for multivalently starlikeness | 131 |
| Yongfan Zheng: On isometry of a complete riemannian manifold to a sphere..... | 135 |
| Takashi Koda: Remark on the second homotopy groups of compact riemannian 3-symmetric spaces | 145 |
| Young Soo Jo and Dae Yeon Ha: Isometries of a generalized tridiagonal algebras $A_{2n}^{(m)}$ | 165 |
| Mitsuteru Kadowaki: The limiting amplitude principle for the acoustic wave operators in two unbounded media..... | 175 |
| Michael Reissig: Leray-Volevich conditions for systems of abstract evolution equations of Nirenberg/Nishida type..... | 193 |
| Joon-sok Park: Yang-Mills connections in orthonormal frame bundle over $SU(2)$ | 203 |
| Seiji Hiraba: Asymptotic behaviour of densities of multi-dimensional stable distributions..... | 207 |
| Tohru Gotoh: Geodesic hyperspheres in complex projective space | 217 |
| Zhongqiang Yang: A note on quotient spaces of supercompact spaces | 223 |
