

CONTENTS

Hideyuki Sakaguchi: A Matsumoto-type theorem for linear groups over some completed quantum tori .....	1
Takashi Teshigawara: A condition for algebras associated with a cyclic quiver to be symmetric.....	27
Juhani Mieminen, Matti Peltola and Pasi Ruotsalainen: On graphs like hypercubes.....	37
Erhan Güler and Aysel Turgut Vanli: On the mean, Gauss, the second Gaussian and the second mean curvature of the helicoidal surfaces with light-like axis in $\mathbf{R}_1^3$ .....	49
Kazuaki Taira: Introduction to boundary value problems of nonlinear elastostatics .....	67
Hidenori Tanaka: Submetacompactness and weak submetacompactness in countable products, II .....	139
P. V. Ramakrishnan and T. Lakshmi: A note on the fusion of two vertices in a fuzzy graph.....	155
Chuan Liu, Shou Lin, and Lewis D. Ludwig: Spaces with a $\sigma$ -point-discrete weak base .....	165
Yun-Feng Bai and Takuo Miwa: On $p$ -maps and $M$ -maps.....	179
Shigeaki Akiyama, Horst Brunotte, Attila Pethö, and Wolfgang Steiner: Periodicity of certain piecewise affine planar maps.....	197
