Oleg DEMCHENKO: Covariant Honda theory . . . . .	303
Thomas K. K. AU and Tom Y. H. WAN: Images of harmonic maps with symmetry . . . . .	321
Rudra P. SARKAR and Sundaram THANGAVELU: On Theorems of Beurling and Hardy for the Euclidean Motion group . . . . .	335
Atsushi ATSUJI: Parabolicity, the divergence theorem for $\delta$ -subharmonic func- tions and applications to the Liouville theorems for harmonic maps . . . . .	353
Kuniaki HORIE: The ideal class group of the basic $\mathbf{Z}_p$ -extension over an imagi- nary quadratic field . . . . .	375
Yoshio FUJIMOTO and Noboru NAKAYAMA: Compact complex surfaces ad- mitting non-trivial surjective endomorphisms . . . . .	395
Qiuyi DAI and Yonggeng GU: Positive solutions of elliptic and parabolic equa- tions with convex-concave nonlinearities . . . . .	427
