Osamu FUJINO: Equivariant completions of toric contraction morphisms	303
Mitsuyasu HASHIMOTO: Another proof of the global F -regularity of Schubert varieties	323
Yuji HAMANA: On the range of pinned random walks	329
Xiaohuan MO and Yuguang SHI: A non-existence theorem of proper harmonic morphisms from weakly asymptotically hyperbolic manifolds	359
Stevan PILIPOVIĆ and Mirjana VULETIĆ: Characterization of wave front sets by wavelet transforms	369
Naoyuki KOIKE: A splitting theorem for proper complex equifocal submanifolds	393
Kumi YASUDA: Semi-stable processes on local fields	419
Seth SULLIVANT: Compressed polytopes and statistical disclosure limitation	433
Sam PAYNE: Fujita's very ampleness conjecture for singular toric varieties	447
