Renming SONG and Zoran VONDRÁČEK: Parabolic Harnack inequality for the mixture of Brownian motion and stable process . . . . .	1
Pedro ROITMAN: Flat surfaces in hyperbolic space as normal surfaces to a congruence of geodesics . . . . .	21
Florin AMBRO: Asymptotically saturated toric algebras . . . . .	39
Anthony H. DOOLEY and Genevieve MORTISS: The critical dimensions of Hamachi shifts . . . . .	57
Shinya HARADA: On the finiteness of mod $p$ Galois representations of a local field . . . . .	67
Gilles PISIER: Simultaneous similarity, bounded generation and amenability . . . . .	79
Chifune KAI: A characterization of symmetric Siegel domains by convexity of Cayley transform images . . . . .	101
Mutsumi SAITO: Primitive ideals of the ring of differential operators on an affine toric variety . . . . .	119
