	Page
G. BROWN, A. H. DOOLEY AND J. LAKE, On the Krieger-Araki-Woods ratio set.....	1
Y. SUYAMA, A differentiable sphere theorem by curvature pinching II .....	15
W. ROSSMAN, Minimal surfaces in $R^3$ with dihedral symmetry .....	31
T. SATO, Positive solutions with weak isolated singularities to some semilinear elliptic equations.....	55
Y. CHEN, Automorphisms of simple Chevalley groups over $\mathcal{Q}$ -algebras .....	81
T. NAGASAWA, The set of solutions for certain semilinear heat equations .....	99
O. HATORI, Functions which operate on algebras of Fourier multipliers .....	105
M. DAJCZER AND R. TOJEIRO, Flat totally real submanifolds of $CP^n$ and the symmetric generalized wave equation .....	117
C. BOUVIER AND G. GONZALEZ-SPRINBERG, Système générateur minimal, diviseurs essentiels et $G$ -désingularisations de variétés toriques .....	125
