	Page
M. M. SUSSMAN, On uniqueness in Cauchy's problem for elliptic partial differential operators with characteristics of multiplicity greater than two.....	165
L. S. DUBE AND J. N. PANDEY, An inversion of the Hankel potential transform of generalized functions.....	189
P. T. NAGY, On the tangent sphere bundle of a Riemannian 2-manifold.....	203
A. M. ODLYZKO, Lower bounds for discriminants of number fields. II.....	209
S. KYUNO, On the semi-simple gamma rings.....	217
S. KANEMAKI, Quasi-Sasakian manifolds.....	227
Y. YOSHIMATSU, On the decomposition of generalized S -curvature-like tensor fields.....	235
T. NISHIMORI, Behaviour of leaves of codimension-one foliations.....	255
N. KAZAMAKI, The equivalence of two conditions on weighted norm inequalities for martingales.....	275
N. SHIMAKURA, Equations différentielles provenant de la génétique des populations.....	287
