	page
H. BEHNCKE, Projections in Hilbert space II .....	349
R. A. DEVORE, On a saturation theorem of Tureckii .....	353
R. A. DEVORE, On the direct theorem of saturation .....	363
T. OTSUKI, Minimal submanifolds with $M$ -index 2 in Riemannian manifolds of constant curvature .....	371
T. SAKAI, On closed geodesics of lens spaces .....	403
M. NAKAI, The equation $\Delta u = Pu$ on $E^m$ with almost rotation free $p \geq 0$ .....	413
S. M. MAZHAR, On the absolute summability factors of infinite series .....	433
C. B. SPENCER, Relative homotopy operations .....	453
B. ROUX, Sur la dualite de Morita .....	457
K. WATANABE, On the uniqueness of the Cauchy problem for certain elliptic equations with triple characteristics .....	473
N. TODA, Le défaut modifié de systèmes et ses applications .....	491
K. SAITÔ, On the algebra of measurable operators for a general $AW^*$ -algebra II .....	525
T. TAKAHASHI AND S. TANNO, $K$ -contact Riemannian manifolds isometrically immersed in a space of constant curvature .....	535
K. SAITÔ, On the embedding as a double commutator in a type 1 $AW^*$ -algebra .....	541
S. SAKAI, Derivations of simple $C^*$ -algebras, III .....	559
Y. HINO, Continuous dependence for functional differential equations .....	565
