

## CONTENTS

---

	Page
T. Y. LIN, On complex manifolds with certain structure which are related to complex contact structure .....	187
Y.TOMONAGA, A-genus and differentiable imbedding .....	203
S.HAMADA, On a free resolution of a dihedral group .....	212
K.IKOMA, Modulus of rings in space .....	220
S.TAKIZAWA, On the contact structures of real and complex manifolds .....	227
Y.KUBOTA, On the approximately continuous Denjoy integral .....	253
A.SAGAWA, On the existence of harmonic functions on a Riemann surface .....	265
C.WATARI, A note on saturation and best approximation .....	273
N.SUZUKI and T.SAITÓ, On the operators which generate continuous von Neumann algebras .....	277
S.TAKAHASHI, The law of the iterated logarithm for a gap sequence with infinite gaps .....	281
S.TANNO, On fiberings of some non-compact contact manifolds .....	289
