Takenouchi, O.: On the maximal Hilbert algebras. ····· 123
Nakamura, M. and Takeda, Z.: Group repesentation and branch limit. ····· 132
Wada, H.: On the structure of a sphere bundle. ····· 136
Katsurada, Y.: On the theory of non-holonomic systems in the Finsler space. ····· 140
Tachibana, S.: On concircular geometry and Reimann spaces with constant scalar curvatures. ····· 149
Adati, T.: On subprojective spaces, I. ····· 159
Kimpara, M.: Sur les Réseaux plans dans un espace à connexion projective à deux dimensions. ····· 174
Kuroda, T.: Some remarks on an open Riemann surface with null boundary. ····· 182
Sunouchi, G.: Harmonic analysis and Wiener integral. ····· 187
Tsuchikura, T.: Some remarks on the Riemann sums. ····· 197
Tsuchikura, T.: On asymptotically absolute convergence. ····· 203
Tsuchikura, T.: On the function $t - [t] - \frac{1}{2}$. ····· 208
Izumi, S.: Notes on Fourier analysis (XXVII). A theorem on Cesàro summation. ····· 212
Sunouchi, G.: Notes on Fourier analysis (XLVI): A convergence criterion for Fourier series. ····· 216
Sunouchi, G.: A class of singular integral equations. ····· 220
Yano, S.: On Walsh Fourier series. ····· 223
