Index

$\|\cdot\|_{(2)}$ 18
$\|\cdot\|_{(1)}$ 20
$<\cdot,\cdot>_{(2)}$ 18
$\mathcal{A}$ 119
adapted random measure 120
adjoint operator 16

Baire's first category 6
Baire's second category 6
Banach space 3
Banach-Alaoglu theorem 55
Bessel inequality 14
Bochner functional 62
Borel measures $\mathcal{M}(X)$ 47
Borel probability measures $\mathcal{P}(X)$ 47
Borel sets $\mathcal{B}(X)$ 47
bounded functional 7
bounded operator 16
bounded set 7
Brownian sheet (B.S.) 97

C([0,T],X) 71
C-tight 174
cable equation 128
canonical injection 30
Cauchy sequence 3
characteristic function 62
characteristic measure 121
class (QL) 120
closed operator 26
compact operator 17
compactness in topology of weak convergence 56
compatible family 40
compatible norms 30
compatible with (Φ, H, Φ') 40
compensator 120
complete 3
complete orthonormal system (CONS) 12
completion 5
cone condition 320
continuous part 120
conuclear space 85
countably Hilbertian nuclear space (CHNS) 30
countably Hilbertian space 30
covariance functional 102
cylindrical Brownian motion (c.B.m) 93

$\mathcal{D}$-martingale problem 244
D([0,T],X) 71
dual operator 16
dual space 7

evolution solution 155
exchangeable random variables 287
explosion time 150
extension 113

Frèchet space 3

Garsia's theorem 311
Gaussian random field 97
Gel'fand triplet 33
generator 25
Good measure 202
Good process 201

H-martingale 88
H-square-integrable-martingale 88
H-valued Brownian motion 94
Hahn-Banach theorem 8
Hermite functions 34
Hermite polynomials 34
Hilbert space 3
Hilbert-Schmidt norm 18
Hilbert-Schmidt operator 18
Hilbert-Schmidt orthogonalization 15
Hilbertian norm 3

Ibragimov's theorem 136
independently scattered random measure 121
inner product 3
integer-valued random measure 121
Itô's formula 122

jump set 121

Kotelenez's theorem 137

L(X,Y) 16
$L_c(X,Y)$ 17
$L_{(2)}(X,Y)$ 18
$L_{(1)}(X,Y)$ 20
$\mathcal{L}$-martingale problem 176
LDP 299
lifting 300
linear operator 16

$\mathcal{M}^{2,c}(\mathbf{R})$ 119
$\mathcal{M}^{2}(\mathbf{R})$ 119
$\mathcal{M}^{2,d}(\mathbf{R})$ 120
martingale random measure 120
metric 4
metric space 3
mild solution 135, 155
Minlos's theorem 65

neighborhood 2
non-centered Wiener process 102
norm 2
nowhere dense set 6
nuclear operator 20

open set 2
Ornstein-Uhlenbeck random field 131
orthogonal 12
orthogonal complement 12
orthogonal projection 12
orthogonal system 12

Parseval equation 13
Φ'-martingale 88
Φ'-square-integrable-martingale 88
Φ'-Wiener process 101
pathwise uniqueness 200, 254
point process 121
Poisson random measure 121
Polish space 54
pre-Banach space 3
pre-Frèchet space 3
pre-Hilbert space 3
predictable 121
process 86
Prohorov's theorem 58
pseudometric 46
purely-discontinuous 120
purely-discontinuous part 120

random field 97
random measure 120
random variable 86
rapidly decreasing functions 39
rate function 306
reflexive space 10
regularization theorem 87
resolvent of A at λ 26
resolvent set 26
reversal potential 129, 262
Riesz representation theorem 15

rigged Hilbert space 33

σ-finite random measure 120
S-topology 68
Sazonov's theorem 68
Schwartz inequality 11
Schwartz space 33
self-adjoint operator 16
semi-norm 2
separable space 13
separating condition 2, 46
Skorohod's representation theorem 59
space-time Brownian motion 97
special compatible family 43
Spectral decomposition theorem 22
spectral family 20
standard extension 113
standard Wiener process 107
stochastic cable equation 129
stochastic heat equation 134
stochastic integral 98, 122, 123
strong dual 7
strong solution 150, 199, 254
strong topology 7, 17
strongly continuous semigroup 24
symbol 140
symmetric operator 16

tempered distributions 39
tightness 55
topological vector space 1
topology 2
trace 20

uniqueness in law 201

weak solution 172, 248
weak*-topology 55
weak convergence of probability measures 55
white noise in space-time 98
white noise random measure 97
