

Algorithm, 1
Alphabet, 29
Alternating prefix, 44
Analytical Enumeration Theorem, 74
Analytical hierarchy, 74
Analytical Hierarchy Theorem, 74
Analytical relation, 71
Arithmetical Enumeration Theorem, 47
Arithmetical hierarchy, 47
Arithmetical Hierarchy Theorem, 47
Arithmetical relation, 43
Atomic formula, 33
Axioms, 34

Barwise, Jon, 79
Basic machine, 3
Borel relation, 76
Bound variable, 33
Bounded quantifier, 16

Cantor, Georg, 28
Church, Alonzo, 26
Church's Thesis, 26
Class, 3
Code, 16
COF, 61
Cofinite, 61
Complete, 59, 65
Composition, 9
Computable function, 1
Computable relation, 3
Computation, 1, 21
Computation number, 22
Compute, 1, 5, 68
Conjunction, 14
Constant, 33
Contraction, 19
Contraction of quantifiers, 44
Counter, 3
Course-of-values, 20
Creating function, 63
Creative set, 64

Davis, Martin, 79
Decision problem, 34
DECREASE, 4
Definable, 36
Define, 36
Degree, 53, 54
Dekker, James C. E., 66
 Δ_n^0 , 44
 Δ_n^1 , 73
Descriptive Set Theory, 79
Diagonal argument, 28
Diagonal set, 47
Disjunction, 14

Effective coding, 17
Enumerate, 47, 75
Enumeration Theorem, 22
Equality, 9
Equivalent programs, 5
