

CONTENTS

INTRODUCTION	iv
NOTATION	vii
CHAPTER 1 : PRELIMINARY MEASURE THEORY	1
§1. Basic Notions	1
§2. Hausdorff Measure	6
§3. Densities	10
§4. Radon Measures	17
CHAPTER 2 : SOME FURTHER PRELIMINARIES FROM ANALYSIS	29
§5. Lipschitz Functions	29
§6. BV Functions	34
§7. Submanifolds of \mathbb{R}^{n+k}	40
§8. The Area Formula	46
§9. First and Second Variation Formulae	48
§10. The Co-area Formula	53
CHAPTER 3 : COUNTABLY n -RECTIFIABLE SETS	58
§11. Basic Notions, Tangent Properties	58
§12. Gradients, Jacobians, Area, Co-area	66
§13. The Structure Theorem	70
§14. Sets of Locally Finite Perimeter	71
CHAPTER 4 : THEORY OF RECTIFIABLE n -VARIFOLDS	77
§15. Basic Definitions and Properties	77
§16. First Variation	80
§17. Monotonicity Formulae and Basic Consequences	82
§18. Poincaré and Sobolev Inequalities	89
§19. Miscellaneous Additional Consequences of the Monotonicity Formulae	95

CHAPTER 5 : THE ALLARD REGULARITY THEOREM	102
§20. Lipschitz Approximation	103
§21. Approximation by Harmonic Functions	109
§22. The Tilt-Excess Decay Lemma	111
§23. Main Regularity Theorem: First Version	120
§24. Main Regularity Theorem: Second Version	125
CHAPTER 6 : CURRENTS	129
§25. Preliminaries: Vectors, Co-vectors, and Forms	129
§26. General Currents	132
§27. Integer Multiplicity Rectifiable Currents	146
§28. Slicing	155
§29. The Deformation Theorem	162
§30. Applications of the Deformation Theorem	177
§31. The Flat Metric Topology	179
§32. Rectifiability Theorem, and proof of the compactness theorem	183
CHAPTER 7 : AREA MINIMIZING CURRENTS	193
§33. Basic Concepts	193
§34. Existence and Compactness Results	196
§35. Tangent Cones and Densities	202
§36. Some Regularity Results (Arbitrary Codimension)	210
§37. Codimension 1 Theory	215

CHAPTER 8 : THEORY OF GENERAL VARIFOLDS	227
§38. Basics, First Rectifiability Theorem	228
§39. First Variation	233
§40. Monotonicity and Consequences	235
§41. Constancy Theorem	240
§42. Varifold Tangents and Rectifiability Theorem	242
APPENDIX A : A GENERAL REGULARITY THEOREM	255
APPENDIX B : NON-EXISTENCE OF STABLE MINIMAL CONES, $n \leq 6$.	261
