ACKNOWLEDGMENT OF PRIORITY

By John W. Pratt

Harvard University

Of the results of my paper "On Interchanging Limits and Integrals," (*Ann. Math. Statist.* **31** 74–77), at least Theorem 1 and, in effect, Corollary 3 were given by W. H. Young (*Proc. London Math. Soc.* (*2*) **9** (1910/11) 286–324, especially Sections 4, 31, 32, and 35). See also pp. 221–223 of Hans Hahn and Arthur Rosenthal, *Set Functions* (University of New Mexico Press, 1948). I am grateful to Robert H. Berk and Michel Loève, through whom I learned of these references.
