

## BOUNDARY PROBLEMS IN DIFFERENTIAL EQUATIONS

edited by Rudolph E. Langer

BOUNDARY PROBLEMS IN DIFFERENTIAL EQUATIONS is comprised of the nineteen papers which were delivered at The Symposium on Boundary Problems in Differential Equations conducted by the Mathematics Research Center, United States Army, at the University of Wisconsin, Madison, April 20-22, 1959. \$4.00

## ON NUMERICAL APPROXIMATION

edited by Rudolph E. Langer

ON NUMERICAL APPROXIMATION is comprised of the twenty-one papers which were delivered at The Symposium on Numerical Approximation conducted by the Mathematics Research Center, United States Army, at the University of Wisconsin in April, 1958. The objective of this symposium was the presentation and discussion of recent developments in the field of numerical approximation. The papers are centered around three general themes: *Linear Approximation*, *External Approximation*, and *Algorithms*. \$4.50

**INTERNATIONAL JOURNAL OF ABSTRACTS  
STATISTICAL THEORY AND METHOD**

The aim of this new Journal is to give complete coverage of papers in the field of statistical theory (including associated aspects and probability and other mathematical methods) and new contributions to statistical method as published after 1st October 1958.

All contributions in the following five journals—being wholly devoted to this field—will be abstracted: *Annals of Mathematical Statistics*; *Biometrika*; *Journal, Royal Statistical Society (Series B)*; *Bulletin of Mathematical Statistics*; *Annals, Institute of Statistical Mathematics*; and a further group of six journals will be abstracted on a **virtually complete** basis as follows: *Biometrics*; *Metrika*; *Metron*; *Review, International Statistical Institute*; *Technometrics*; *Sankhyā*. There are about 250 other journals partly devoted to statistical theory and method from which the appropriate papers will be abstracted.

A scheme of classification has been developed for the abstracts that is flexible and facilitates the transfer of code numbers to punched-cards. A **unique aspect of this Journal** is that the pages are colour-tinted according to the main sections of classification. This method of colour-coding the pages provides a distinctive and powerful visual aid in the identification of abstracts in whatever manner the Journal is filed for reference.

The abstracts will be about 400 words long—the recommendation of UNESCO for the “long” abstract service—and will be in the English language. **This new Journal will be quarterly and contain approximately 1000 abstracts per year.**

*Annual Subscription* £5 (U.S.A. & CANADA \$16.00)  
*Single Number* 30s. (U.S.A. & CANADA \$ 4.50)

*Announcing a new series of books*

**Proceedings of Symposia in Pure Mathematics  
Volume 1**

**FINITE GROUPS**

The eleven articles in this book are texts of addresses which were delivered at a symposium held in April, 1959. The discussions at the symposium were lively and served to indicate an enormous renewed interest in one of the oldest branches of algebra. The major new results in the field which are brought out in this book should serve to stimulate research activity in the Theory of Groups, one of the most beautiful subjects of mathematics.

The authors contributing papers to this book are:

J. G. THOMPSON  
R. C. LYNDON  
DANIEL GORENSTEIN  
H. S. M. COXETER

WALTER FEIT  
MARSHALL HALL, JR.  
DANIEL HUGHES

MICHIO SUZUKI  
W. E. DESKINS  
HANS ZASSENHAUS  
WILHELM MAGNUS

## **MEETINGS OF THE INSTITUTE**

### **TENTATIVE SCHEDULE**

**CENTRAL REGIONAL MEETING—Lafayette, Indiana, April 7-9, 1960.**

**EASTERN REGIONAL MEETING—New York City, April 21-23, 1960.**

**ANNUAL MEETING—Stanford, California, August 23-26, 1960.**

**Abstracts** should be submitted in duplicate to the Editor, preferably on abstract blanks, which can be obtained from the IMS Secretary. Abstracts must be received at least 50 days before the first day of the meeting at which they are to be presented, indicating whether presented by title or in person. (Only one contributed paper may be given in person at any one meeting.) They may be printed prior to the publication of the report of the meeting. Those received by April 30 will appear in the September *Annals*, by July 31 in December, etc. Abstracts should be limited to 200 words or the equivalent, and should avoid displayed expressions and complicated formulae. They can be accepted from non-members of the IMS only if transmitted by members.

# THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

## OFFICERS

### *President:*

John W. Tukey, Department of Mathematics, Princeton University, (mail to Box 708, Princeton, New Jersey), and Bell Telephone Laboratories, Inc., Murray Hill, New Jersey

### *President-Elect:*

E. L. Lehmann, Department of Statistics, University of California, Berkeley 4, California

### *Secretary:*

G. E. Nicholson, Jr., Department of Statistics, University of North Carolina, Chapel Hill, North Carolina

### *Treasurer:*

A. H. Bowker, Department of Statistics, Stanford University, Stanford, California

### *Editor:*

William Kruskal, Department of Statistics, Eckhart Hall, University of Chicago, Chicago 37, Illinois

The purpose of the Institute of Mathematical Statistics is to encourage the development, dissemination, and application of mathematical statistics.

Membership dues including a subscription to the ANNALS OF MATHEMATICAL STATISTICS are \$10.00 per year for residents of the United States or Canada and \$5.00 per year for residents of other countries. There are special rates for students and for some other classes of members. Inquiries regarding membership in the Institute should be sent to the Secretary of the Institute.
