

BIOMETRIKA

Volume 44

Contents Parts 3 and 4, December 1957

KARL PEARSON, 1857-1957. Centenary lecture by J. B. S. HALDANE. LESLIE, P. H. An analysis of the data for some experiments carried out by Gause with populations of the protozoa, *Paramecium aurelia* and *Paramecium caudatum*. COX, D. R. & SMITH, W. L. On the distribution of *Tribolium confusum* in a container. WATSON, G. S. The χ^2 goodness-of-fit test for normal distributions. SATHE, Y. S. & KAMAT, A. R. Approximations to the distributions of some measures of dispersion based on successive differences. HAIGHT, F. Queueing with balking. DURBIN, J. Testing for serial correlation in systems of simultaneous regression equations. CURNOW, R. N. Heterogeneous error variances in split-plot experiments. HARRIS, A. J. A maximum-minimum problem related to statistical distributions in two dimensions. ROY, S. N. & GNANADESIKAN, R. Further contributions to multivariate confidence bounds. STEVENS, W. L. Shorter intervals for the parameter of the binomial and Poisson distributions. JOWETT, G. H. Statistical analysis using local properties of smoothly heteromorphic stochastic series. ANSCOMBE, F. J. Dependence of the fiducial argument on the sampling rule. FIELLER, E. C., HARTLEY, H. O. & PEARSON, E. S. Tests for rank correlation coefficients. I. BERKSON, J. Tables for use in estimating the normal distribution function by normit analysis. MOORE, P. G. The two-sample *t*-test based on range. FOSTER, F. G. Upper percentage points of the generalized beta-distribution. II. DOTE, ALISON. A bibliography on the theory of queues. *Miscellanea*—Contributions by M. S. BARTLETT, B. E. COOPER, N. L. JOHNSON, D. S. PALMER, A. R. THATCHER, J. W. TUKEY

Corrigenda—D. R. COX

Reviews

Other Books Received

The subscription, payable in advance, is now 54/- (or \$8.00), per volume (including postage). Cheques should be made payable to *Biometrika*, crossed "a/c *Biometrika Trust*" and sent to the Secretary, *Biometrika Office*, Department of Statistics, University College, London, W.C.1. All foreign cheques must be drawn on a Bank having a London agency.

Issued by THE BIOMETRIKA OFFICE, University College, London

Colloquium Publications, Volume XXXI, Revised edition.

FUNCTIONAL ANALYSIS AND SEMI-GROUPS

by EINAR HILLE and RALPH S. PHILLIPS

This is a completely revised and largely rewritten edition of the Colloquium volume of the same name by the first author. The framework of the earlier book has been kept, but the subject matter has been rearranged and much expanded. The algebraic tools are introduced much earlier and put to important use throughout the treatise. Functional analysis occupies almost one third of the book. The sections devoted to the analytical theory of semi-groups have been augmented by new material on perturbation theory, adjoint theory, spectral theory, operational calculus, and stochastic theory.

Journal of the Econometric Society

Contents of Vol. 26, No. 1 - January, 1958

- N. GEORGESCU-ROEGEN..... Threshold in Choice and the Theory of Demand
F. HAHN..... Gross Substitutes and the Dynamic Stability of General Equilibrium
K. J. ARROW..... Utilities, Attitudes, Choices: A Review Note
A. S. MANNE..... A Linear Programming Model of the U.S. Petroleum Refining Industry
J. TOBIN..... Estimation of Relationships for Limited Dependent Variables
M. BECKMANN..... Some Aspects of the Airline Reservations Problem
P. CARRE..... Tentative de détermination empirique de fonctions de production pour les pays industriels
H. WAGNER..... A Monte Carlo Study of Estimates of Simultaneous Linear Structural Equation
G. STUVEL..... The Impact of Changes in the Terms of Trade on Western Europe's Balance of Payments
M. FISHER..... A Sector Model: The Poultry Industry of the U.S.A.
Economic Efficiency in Plant Operations with Special Reference to the Marketing of California Pears (French. Sammet, and Bressler). Review by F. V. Waugh.
Business Forecasting, 1956 (Abramson, Mack, and others). Review by Charles F. Roos.
Einführung in die mathematische Statistik (L. Schmetterer). Review by William Feller.
International Comparisons of Real Wages (International Labour Office). Review by Kurt W. Rothschild.
Income and Wealth. Series V. (S. Kuznets, ed.) Review by J. B. D. Derksen.
Trends in Employment in the Service Industries (G. J. Stigler). Review by Colin Clark.
Zintheorie (F. A. Lutz). Review by Joseph Aschheim.
Foundations of Productivity Analysis (Bela Gold). Review by C. F. Carter.
Rapport sur les comptes de la nation. Review by Walter Froehlich.
Automata Studies (C. E. Shannon and J. McCarthy, eds.). Review by Harry H. Goode.
Economic Progress (Léon H. Dupriez, ed.). Review by Leif Johansen.
On Economic Theory and Socialism, Collected Papers (Maurice Dobb). Review by Kenneth O. May.
Statistics: A New Approach (W. A. Wallis and H. V. Roberts). Review by Maurice Quenouille.
Die Ermittlung der wirtschaftlichen Nutzungsdauer von Anlagegütern (Hansrudolf von Briel.) Review by Eric Schiff.
Structural Interdependences of the Economy: Proceedings of an International Conference on Input-Output Analysis (T. Barna, ed.). Review by Robert Solow.
International Economic Papers No. 4: Translations Prepared for the International Economic Association (Peacock, Turvey, Stolper, and Henderson, eds.). Review by Paul M. Sweezy.
Marketing Efficiency in Puerto Rico (Galbraith, Holton, et al.). Review by Lester G. Telser.
Methodologie économique (Gilles-Gaston Granger). Review by Sten Thore.
Studies in the Economics of Transportation (Beckmann, McGuire Winsten, and Koopmans). R. M. Thrall.
Capital and Its Structure (L. M. Lachmann). Review by W. P. Yohe.

THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

OFFICERS

President:

L. J. Savage, Department of Statistics, University of Chicago, Chicago 37, Illinois

President-Elect:

J. Wolfowitz, Department of Mathematics, Cornell University, Ithaca, New York

Secretary:

G. E. Nicholson, Jr., Department of Statistics, University of North Carolina, Chapel Hill, North Carolina

Treasurer:

A. H. Bowker, Department of Statistics, Stanford University, Stanford, California

Editor:

T. E. Harris, The RAND Corporation, 1700 Main Street, Santa Monica, California

The purpose of the Institute of Mathematical Statistics is to encourage the development, dissemination, and application of mathematical statistics.

Membership dues including a subscription to the ANNALS OF MATHEMATICAL STATISTICS are \$10.00 per year for residents of the United States or Canada and \$5.00 per year for residents of other countries. There are special rates for students and for some other classes of members. Inquiries regarding membership in the Institute should be sent to the Secretary of the Institute.

Contents (continued)

On the Distribution of a Statistic Based on Ordered Uniform Chance Variables
SHANTI S. GUPTA AND MILTON SOBEL 274

Determining Sample Size for a Specified Width Confidence Interval
FRANKLIN A. GRAYBILL 282

Notes:
An Extension of the Optimum Property of the Sequential Probability Ratio Test
M. A. GIRSHICK 288

A Note on Balanced Designs..... V. A. RAO 290

The Spacing of Observations in Polynomial Regression..... P. G. GUEST 294

Conditions That a Stochastic Process Be Ergodic..... EMANUEL PARZEN 299

Power Functions of the Gamma Distribution..... GERALD D. BERNDT 302

The Small Sample Distribution of $n\omega_n^2$ A. W. MARSHALL 307

Limiting Distributions of Homogeneous Functions of Sample Spacings
LIONEL WEISS 310

Another Countable Markov Process With Only Instantaneous States
DAVID BLACKWELL 313

Spacings Generated By Mixed Samples..... LIONEL WEISS 316

Correction to "An Extension of the Kolmogorov Distribution"..... JEROME BLACKMAN 318

Abstracts of Papers..... 325

News and Notices..... 328

Report of the Los Angeles Meeting..... 347

Report of the Editor..... 349

Publications Received..... 350

MEETINGS OF THE INSTITUTE TENTATIVE SCHEDULE

MIDWESTERN REGIONAL MEETING—Ames, Iowa, April 3-5, 1958.
EASTERN REGIONAL MEETING (with Biometric Society)—Gatlinburg, Tennessee, April 10-12, 1958. **ANNUAL MEETING** (with American Mathematical Society)—Cambridge, Massachusetts, August 25-28, 1958.

Abstracts should be submitted in duplicate to the Editor, preferably on abstract blanks, which can be obtained from the IMS Secretary. Abstracts must be received at least 50 days before the first day of the meeting at which they are to be presented, indicating whether presented by title or in person. (Only one contributed paper may be given in person at any one meeting.) They may be printed prior to the publication of the report of the meeting. Those received by April 30 will appear in the September *Annals*, by July 31 in December, etc. Abstracts should be limited to 200 words or the equivalent, and should avoid displayed expressions and complicated formulae. They can be accepted from non-members of the IMS only if transmitted by members.
