

*This volume of *Functiones et Approximatio Comentariorum Mathematicorum*, that consists of two issues, is dedicated to the memory of our dear friend Susanne Dierolf. Susanne was for a long time editor of this journal. She was an outstanding personality and a very strong and enthusiastic mathematician. Sadly enough, she departed this world in April 2009 at the early age of sixty-six, after suffering from intense health problems.*

We have acted as editors of this special volume and want to thank all the authors of the papers included in this volume, many of them personal friends of Susanne, for their kindness to accept our invitation to contribute, and for the quality of the articles. Special thanks are due to Leonhard Frerick and Jochen Wengenroth, for their excellent article on the mathematical work of Susanne Dierolf. We are also very thankful to Prof. Jerzy Kaczorowski, Editor-in-Chief of the journal, for his decisive support in the preparation of the two issues.

José Bonnet and Paweł Domański

Susanne Dierolf
