

CONTENTS

Kazuhiro YAMAMOTO , Reflective elastic waves at the boundary as a propagation of singularities phenomenon	1
Mikiya MASUDA , An invariant of manifold pairs and its applications	13
Tomoyuki YOSHIDA , On the unit groups of Burnside rings	31
Tadatoshi MIYAMOTO , A generalization of Axiom A	65
Akihiko MIYACHI , Hardy-Sobolev spaces and maximal functions	73
Yoshihide OKUMURA , On the global real analytic coordinates for Teichmüller spaces ..	91
Katsuya EDA , Shizuo KAMO and Tsugunori NOGURA , Spaces which contain a copy of the rationals	103
Kazuhito KOZUKA , On a p -adic interpolating power series of the generalized Euler numbers	113
Nobuyoshi MOTOHASHI , A decision method for a set of first order classical formulas and its applications to decision problems for non-classical propositional logics	127
Tosinobu MURAMATU , Besov spaces and analytic semigroups of linear operators	133
Atsushi TACHIKAWA , Harmonic mappings from \mathbf{R}^m into an Hadamard manifold	147
Ahmed I. ZAYED , Generalized Faber expansions of hyperfunctions on analytic curves ..	155
Yasushi ISHIKAWA , A remark on the existence of a diffusion process with non-local boundary conditions	171
