

VOL. 63 NO. 4

OCTOBER, 2011

CONTENTS

T. AOKI and N. HONDA , Geometric properties of the Riemann surfaces associated with the Noumi-Yamada systems with a large parameter	1085
P. MALICKI and A. SKOWROŃSKI , On the indecomposable modules in almost cyclic coherent Auslander-Reiten components	1121
Z. GUO, J. FANG and L. LIN , Hypersurfaces with isotropic Blaschke tensor	1155
M. SCHÜTT , Quintic surfaces with maximum and other Picard numbers	1187
T. MORIYAMA , Generalized Whittaker functions on $GSp(2, R)$ associated with indefinite quadratic forms	1203
H. KITAYAMA , An explicit dimension formula for Siegel cusp forms with respect to the non-split symplectic groups	1263
H. T. ITO and O. YAMADA , Relativistic Hamiltonians with dilation analytic potentials diverging at infinity	1311
Ei. BANNAI and Et. BANNAI , Tight 9-designs on two concentric spheres	1359
H. ONO , A necessary condition for Chow semistability of polarized toric manifolds	1377
Y. KIDA and S. YAMAGATA , Commensurators of surface braid groups	1391
