VOL. 65 NO. 3 JULY, 2013

CONTENTS

H. Mizutani, Strichartz estimates for Schrödinger equations with variable coefficients and potentials at most linear at spatial infinity 687
F. Tari, Umbilics of surfaces in the Minkowski 3-space 723
M. Ohta, Eisenstein ideals and the rational torsion subgroups of modular Jacobian varieties 733
P. D. González Pèrez, Correction of a proof in the paper "Approximate roots, toric resolutions and deformations of a plane branch" 773
M. Kilian and N. Schmitt, Constant mean curvature cylinders with irregular ends 775
E. R. Barbosa, A simple improvement of a differentiable classification result for complete submanifolds 787
K. Tsuboi, The finite group action and the equivariant determinant of elliptic operators II 797
T. Tomaru, $\mathbb{C}^*$-equivariant degenerations of curves and normal surface singularities with $\mathbb{C}^*$-action 829
K. Morimoto, On positive solutions generated by semi-strong saturation effect for the Gierer-Meinhardt system 887
Y. Tanaka, Visible actions on flag varieties of type D and a generalization of the Cartan decomposition 931
L. Fresse, Upper triangular parts of conjugacy classes of nilpotent matrices with finite number of *B*-orbits 967
H. Kunita, Nondegenerate SDE's with jumps and their hypoelliptic properties ·· 993
