Correction to
**“ON COMMUTATOR RINGS AND GALOIS THEORY
OF SEPARABLE ALGEBRAS”**

TERUO KANZAKI

This Journal Vol. 1 (1964), 103–115

(Received November 2, 1964)

The following correction should be made.

P. 109, line 9, from the bottom. “the center of Γ ” should be “the center of the ring Γ , of right multiplication by elements of Γ in $\text{Hom}_R(\Lambda, \Lambda)$ ”.
P. 112, line 10. Insert “and (#)” after “By Proposition 4”.

REMARK. Let Λ and Γ be R -algebras, Λ a Galois extension of Γ , and let Γ be separable over R . Then the center of $\Delta(\Lambda, G)$ and the center of Γ (regarding Γ as a subalgebra of $\Delta(\Lambda, G)$) coincide, if one of the following conditions holds; 1) the condition (#) in § 3 holds, 2) the center of $\Delta(\Lambda, G)$ is contained in Λ , or 3) the center of Γ is contained in the center of Λ .
