EDITORIAL MESSAGES

By Paul D. Humke

Welcome. We welcome Dr. Tatiana Sworowska who will serve as a new *Technical Editor* with the *Exchange* and help us with the increasing demands for indexing and online content.

Assistant Editors. Heartfelt thanks are due Assistant Editors Benjamin Bruce and Jennifer Crawford of St. Olaf College who manage the day-to-day operations of the Editorial Office and prepare papers for publication. They also had key roles in preparing for the *Summer Symposium in Real Analysis* held in Northfield this past June.

Contributors. We extend our grateful thanks to those who contributed to one of the *Real Analysis Exchange* special funds during this past year. Please see the next page for details on contributing.

Author Class File. Our raex.cls LATEX classfile is used with every paper published in the *Exchange*. This classfile utilizes a format for entering author, title and other information that is particularly convenient for extracting that information for the various databases that list the *Exchange*. An author version of the raex.cls classfile is available at our website: www.stolaf.edu/analysis.

Advertisements. Please note the advertisements at the end of each issue, which may be of interest to *Exchange* readers. Others promote Michigan State University Press publications and therefore help support the production of our journal. If you have written a book, or have an item of interest you wish to publicize in the Journal, please contact the Michigan State University Press Journals Division.

Michigan State University Press. If you are contemplating writing a text-book on a subject in mathematics, or a memoir, please consider using the Michigan State University Press as your publisher. The Press is a non-profit organization affiliated with Michigan State University that offers superior service and much lower costs than commercial publishers, along with complimentary advertising in *Real Analysis Exchange*.

Website. We encourage you to visit our websites and invite your feedback regarding the content. The addresses are:
