Bernhard RUNGE: Endomorphism rings of abelian surfaces and projective models of their moduli spaces.....	283
Jae Moon KIM: Circular units in the \mathbb{Z}_p -extensions of real abelian fields of prime conductor.....	305
Yoshihiro AIHARA: The uniqueness problem of meromorphic mappings with deficiencies	315
Masakazu MURO: Singular invariant hyperfunctions on the space of real symmetric matrices	329
Takahiro HAYASHI: Galois quantum groups of II_1 -subfactors	365
Ravi P. AGARWAL and Donal O'REGAN: Boundary value problems of nonsingular type on the semi-infinite interval	391
Valery ALEXEEV and Iku NAKAMURA: On Mumford's construction of degenerating abelian varieties	399
Jack K. HALE and Domingo SALAZAR: Boundary layers in a semilinear parabolic problem.....	421
