

## INDEX

### A

action of group 51  
affine group 17, 30, 34, 90  
alternating group 45  
American Psychological Association data 93  
analysis of variance 61, 112, 153, 163  
association-measures of 102, 106  
association schemes 60  
automorphism 32  
    of designs 156

### B

balanced incomplete block designs 157  
Bernoulli-Laplace diffusion 56, 59  
bibliography 2, 61  
bi-invariant 54  
Bingham density 171  
Borel shuffle 18, 84  
branching theorem 138  
bridge 78  
Burnsides lemma 135

### C

card shuffling 18ff, 69, 77ff  
Cayley distance 117ff, 122, 123  
character 9  
    orthogonality relations for 11  
    of symmetric group 137  
    as a metric 120  
circulant 50ff  
cities, distance data 92, 142  
class functions 14, 15, 24, 35, 60  
codes 46  
column stabilizer 132  
combinatorial central limit theorem 115  
conjugacy 14  
Condorcets rule 107  
convolution 7  
coupling 84  
covariance matrices 101  
covariance 178  
cutoff phenomenon 18, 91  
cycle notation 5
