

Preface to the Present Volume

Most of the papers contributed to this volume are related to the following two symposia which bear the same title:

“Integrable Models in Quantum Field Theory and Statistical Mechanics” held at Research Institute for Mathematical Sciences, Kyoto University during October 17–21, 1988, and at Kyuzeso, Katata during October 24–28, 1988.

The latter was held as the Taniguchi Conference. The editors wish to express their heartiest gratitude to Mr. Toyosaburo Taniguchi, Prof. Kiyoshi Ito and the Taniguchi Foundation for providing them the opportunity of organizing the Conference.
