1	Introduction	1
1.1	Structure of semiconductor device	2
1.2	Mathematical models	5
1.3	Review of previous results	9
1.4	Notation	11
2	Mathematical problem and main results	13
2.1	Initial boundary value problem for hydrodynamic model	13
2.2	Formal computation of relaxation limits	15
2.3	Asymptotic behavior of hydrodynamic model	17
2.4	Relaxation time limits	19
2.5	Outline of proofs	21
3	Stationary solutions	23
3.1	Unique existence of stationary solutions	23
3.2	Relaxation limits of stationary solutions	33
4	Energy-transport model	37
4.1	Uniform estimate of local solution	40
4.2	Semi-global existence of solution	43
4.3	Global existence of solution	50
4.4	Energy relaxation limit	59
4.5	Additional regularity	60
5	Hydrodynamic model	67
5.1	Uniform estimate of local solution	67
5.2	Semi-global existence of solution	74
5.3	Global existence of solution	82
5.4	Momentum and energy relaxation limits	93
