

Contents

1	Phase Plane Analysis	1
1.1	Traveling Fronts for Bistable Nonlinearity I	6
1.2	Traveling Fronts for the Fisher–KPP Equation	12
1.3	Traveling Fronts for Combustion Models	18
1.4	Traveling Fronts for Degenerate Monostable Equations	21
2	Existence and the Schauder Estimates of Solutions	30
2.1	Existence and Uniqueness of a Solution	30
2.2	The Schauder Estimates	38
2.3	Applications	41
3	Properties of Traveling Front Solutions	43
4	Traveling Fronts for Bistable Nonlinearity II	57
4.1	A Sufficient Condition for Existence of a Traveling Front	60
4.2	Traveling Fronts for Bistable Nonlinear Terms	69
5	Weak Supersolutions and Weak Subolutions	75
6	V-form Traveling Fronts	85
6.1	Existence of V-Form Traveling Fronts	85
6.2	Stability of V-Form Traveling Fronts	99
7	Pyramidal Traveling Fronts	106
7.1	Preliminaries for Pyramidal Traveling Fronts	106
7.2	Existence of Pyramidal Traveling Fronts	124
7.3	Stability of Pyramidal Traveling Fronts	130
7.4	Further Studies	148
Appendix A	The Maximum Principles	149
A.1	Maximum Principles for Differential Inequalities	149
A.2	A Heat Equation in a One-Dimensional Finite Interval	152
A.3	Strong Maximum Principles	160
A.4	Maximum Principles for Parabolic Systems	162
	References	168
