

# Bibliography

*This bibliography contains, besides references cited in the book, representative samples of other work in the area. Although a few sources in the intuitionist or constructivist traditions of Brouwer, Bishop, the Russian school etc. are listed, we have mainly limited ourselves to works in which the usual classical reasoning of mathematics is employed.*

- Aberth, O.  
1971 *The failure in computable analysis of a classical existence theorem for differential equations*, Proc. Amer. Math. Soc. 30, 151–156  
1980 *Computable analysis*, McGraw-Hill: New York
- Ahlfors, L.V.  
1953 *Complex Analysis*, McGraw-Hill: New York
- Baez, J.C.  
1983 *Recursivity in quantum mechanics*, Trans. Amer. Math. Soc. 280, 339–350
- Beeson, M.J.  
1985 *Foundations of constructive mathematics*, Springer: Heidelberg, New York
- Bishop, E.A.  
1967 *Foundations of constructive analysis*, McGraw-Hill: New York  
1970 *Mathematics as a numerical language*, Intuitionism and Proof Th.; 1968 Buffalo 53–71; ed. by Kino, A., Myhill, J., Vesley, R.E.. North Holland: Amsterdam
- Bishop, E.A., Bridges, D.S.  
1985 *Constructive analysis*, Springer: Heidelberg, New York
- Blum, L., Shub, M., Smale, S.  
*On a theory of computation and complexity over the real numbers: NP completeness, recursive functions and universal machines* (to appear in Bull. Amer. Math. Soc.)
- Bridges, D.S.  
1979 *Constructive functional analysis*, Pitman Publ.: Belmont, London v + 203pp
- Brouwer, L.E.J.  
1908 *The unreliability of the logical principles (Dutch)*, Tijdsch. Wijsbegeerte 2, 152–158; transl. in: Coll. Works I, 107–111 (1975) (English)  
1975 *Collected works I*, North Holland: Amsterdam  
1981 *Brouwer's Cambridge lectures on intuitionism*, Cambridge Univ. Pr.: Cambridge, GB
- Caldwell, J., Pour-El, M.B.  
1975 *On a simple definition of computable function of a real variable—with applications to functions of a complex variable*, Z. Math. Logik Grundlagen Math. 21, 1–19
- Cleave, J.P.  
1969 *The primitive recursive analysis of ordinary differential equations and the complexity of their solutions*, J. Comp. Syst. Sci. 3, 447–455
- Cook, S.A.  
1971 *The complexity of theorem proving procedures*, ACM Symp. Th. of Comput. (3); 1971 Shaker Heights 151–158
