LECTURE NOTES–MONOGRAPH SERIES

Mathematical Statistics and Applications:
Festschrift for Constance van Eeden

Marc Moore, Sorana Froda and Christian Léger, Editors

Institute of Mathematical Statistics

LECTURE NOTES–MONOGRAPH SERIES

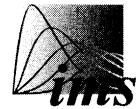

Volume 42

Mathematical Statistics and Applications: Festschrift for Constance van Eeden

Marc Moore, Sorana Froda & Christian Léger, Editors

Volume 42 is a joint project between the

Institute of Mathematical Statistics
Beachwood, Ohio, USA

Le Centre de Recherches Mathématiques
Montreal, Quebec, Canada

Institute of Mathematical Statistics
Lecture Notes-Monograph Series

Series Editor:
Joel Greenhouse

The production of the *Institute of Mathematical Statistics
Lecture Notes-Monograph Series* is managed by the
IMS Societal Office: Julia A. Norton, Treasurer and
Elyse Gustafson, Executive Director.

Library of Congress Control Number: 2003107765

International Standard Book Number 0-940600-57-9

Contents

Contributors	vii
Preface	xiii
Biography	xv
Bibliography	xix
The Scientific Family Tree of Constance van Eeden	xxv
On Minimax Estimation of a Normal Mean Vector for General Quadratic Loss <i>William E. Strawderman</i>	3
Old and New Aspects of Minimax Estimation of a Bounded Parameter <i>Guido Bader and Wolfgang Bischoff</i>	15
Some Aspects of Matching Priors <i>N. Reid, R. Mukerjee and D.A.S. Fraser</i>	31
Improving on the MLE of p for a Binomial(n, p) When p Is Around $\frac{1}{2}$ <i>François Perron</i>	45
Asymptotically Most Accurate Confidence Intervals in the Semiparametric Symmetric Location Model <i>Chris A.J. Klaassen</i>	65
Aligned Rank Test for the Bivariate Randomized Block Model <i>Denis Larocque and Isabelle Bussières</i>	85
Testing Symmetry of the Errors of a Linear Model <i>Thomas P. Hettmansperger, Joseph W. McKean and Simon J. Sheather</i>	99
Spearman's ρ and Kendall's τ for Multivariate Data Sets <i>Hamani El Maache and Yves Lepage</i>	113
Accardi contra Bell (cum mundi): The Impossible Coupling <i>Richard D. Gill</i>	133

Uncertainty, Entropy, Variance and the Effect of Partial Information	
<i>James V. Zidek and Constance van Eeden</i>	155
Toetjes na	
<i>Thomas S. Ferguson and Christian Genest</i>	169
On Random Walks and Diffusions Related to Parrondo's Games	
<i>Ronald Pyke</i>	185
Derivative in the Mean of a Density and Statistical Applications	
<i>J. Jurečková and X. Milhaud</i>	217
Asymptotics for Robust Sequential Designs in Misspecified Regression Models	
<i>Sanjoy Sinha and Douglas P. Wiens</i>	233
Explicit Solutions in a Smooth Change Problem	
<i>Andrew L. Rukhin</i>	249
On Threshold-Based Classification Rules	
<i>Leila Mohammadi and Sara van de Geer</i>	261
Two Types of Infectives Among Homogeneous IVDU Susceptibles	
<i>J. Gani</i>	281
Optimal Group Sequential Designs for the Anscombe–Colton Model	
<i>A. John Petkau</i>	291
General Saddlepoint Approximation Methods for Smooth Functions of M-Estimates with Bootstrap Applications	
<i>D.F. Andrews and A. Feuerverger</i>	317
Log-Normal Durations Can Give Long Range Dependence	
<i>Jan Hannig, J.S. Marron, Gennady Samorodnitsky and F.D. Smith</i>	333
On Estimating the Period of a Cyclic Poisson Process	
<i>Roelof Helmers and I Wayan Mangku</i>	345

Some Efficiency Comparisons for Estimators From Quasi-Likelihood and Generalized Estimating Equations <i>S. Liu and C.C. Heyde</i>	357
An Analysis of a Bivariate Time Series in Which the Components Are Sampled at Different Instants <i>David R. Brillinger</i>	375
Tests for Non-Correlation of Two Multivariate Time Series: A Nonparametric Approach <i>Khalid El Himdi, Roch Roy and Pierre Duchesne</i>	397
Affine Invariant Linear Hypotheses for the Multivariate General Linear Model with VARMA Error Terms <i>Marc Hallin and Davy Paindaveine</i>	417
Score Tests for Dependent Censoring with Survival Data <i>Mérim Saïd, Nadia Ghazzali and Louis-Paul Rivest</i>	435
On Local Polynomial Estimation of Hazard Rates and Their Derivatives under Random Censoring <i>Jiancheng Jiang and Kjell Doksum</i>	463
A Simulation Study of a Minimum Distance Estimator for Finite Mixtures Under Censoring <i>René Ferland, Sorana Froda and Jean Lavigne</i>	483
