**LECTURE NOTES MONOGRAPH SERIES**

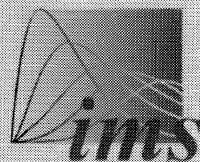

---

**Crossing Boundaries:**  
**Statistical Essays in Honor of Jack Hall**

**John E. Kolassa and David Oakes, Editors**

---

**Volume 43**

**Institute of Mathematical Statistics**

**LECTURE NOTES MONOGRAPH SERIES**

**Volume 43**

**Crossing Boundaries:  
Statistical Essays in Honor of Jack Hall**

John E. Kolassa and David Oakes, Editors

**Institute of Mathematical Statistics  
Beachwood, Ohio, USA**

Institute of Mathematical Statistics  
*Lecture Notes-Monograph Series*

Series Editor:  
Joel Greenhouse

The production of the *Institute of Mathematical Statistics  
Lecture Notes-Monograph Series* is managed by the  
IMS Societal Office: Julia A. Norton, Treasurer and  
Elyse Gustafson, Executive Director.

Library of Congress Control Number: 2003109832

International Standard Book Number 0-940600-58-7

## TABLE OF CONTENTS

Contributors to this volume .....	iii
Preface .....	iv
List of Methodological Publications by Jack Hall, to 2002.....	vi

### Sequential analysis

Testing for a treatment-by-stratum interaction in a sequential clinical trial. ....	1
..... BENJAMIN YAKIR AND W.J. HALL	
Bias of estimates of secondary parameters in linear-boundary sequential tests. ....	13
..... VLADIMIR DRAGALIN, BENJAMIN YAKIR AND W.J. HALL	
Asymptotic Design of general triangular stopping boundaries for Brownian motion.	29
..... PENG HUANG	
A Simple Low-Bias Estimate Following a Sequential Test With Linear Boundaries.....	47
..... AIYI LIU	

### ROC Curve analysis

A goodness-of-fit test for a receiver operating characteristic curve from continuous diagnostic test data. ....	59
KELLY H. ZOU, JOSEPH L. GASTWIRTH AND BARBARA J. MCNEIL	

### Semiparametric inference

Efficient estimation in a semiparametric heteroscedastic autoregression model. ...	69
..... ANTON SCHICK	
Gaussian white noise models, some results for monotone functions.....	87
..... JON A. WELLNER	
Inference for the proportional mean residual life model.....	105
..... DAVID OAKES AND TAMRAPARNI DASU	
Bayesian Inference For Survival Data With a Surviving Fraction.....	117
..... DEBAJYOTI SINHA, MING-HUI CHEN, AND JOSEPH G. IBRAHIM	

### Saddlepoint approximations

Continuity correction for the score statistic in discrete regression models. ....	139
..... JOHN E. KOLASSA	
Saddlepoint approximations of the two-sample Wilcoxon statistic.....	149
..... RUNGAO JIN AND JOHN ROBINSON	

### Estimation Theory

A class of parameter functions for which the unbiased estimator does not exist. ...	159
..... SHANDE CHEN	
The sample size for estimating a binomial proportion with a given margin of error.	165
..... B.P. GHOSH AND WEI-MIN HUANG	
On a binomial admissibility problem. ....	183
..... J.H.B. KEMPERMAN	

**Linear Models and Analysis of Variance**

Some heuristics for analysis of variance.....K.RUBEN GABRIEL 197

The fundamental theorem of least squares, its relevance to experimental design and

Bayesian inference.....HENG LI AND ALAN ZASLAVSKY 203

**Data mining and applications**

Challenges in the information technology field for statisticians.....

.....SIDDHARTHA R. DALAL 209

What use is statistics for massive data sets? ..... DIANE L. LAMBERT 217

Forecasting health care expenditures and utilization based on a Markov process  
and a deterministic cost function in managed care settings..... CHARLES

MCGHEE, JAY H. GLASSER, WENYAN CHAN AND NANCY POMEROY 229
