

List of Tables

1	Fundamental chambers $\mathcal{M}^{(2,4)}$ of reflection groups $W^{(2,4)}(S)$ for 2-elementary even hyperbolic lattices S of elliptic type.	52
2	Diagrams $\Gamma(P(X)_+)$ of extremal K3 surfaces (X, θ) of elliptic type which are different from Table 1	64
3	Dual diagrams Γ of all exceptional curves of extremal right DPN surfaces of elliptic type	93
4	Correspondence between connected components of Γ and singularities of $D = \sigma(\tilde{D})$	103
