

## CONTENTS OF VOLUME IV

On the System of Curves for which the Method of Moments is the Best Method of Fitting . . . . .	1
<i>A. L. O'Toole</i>	
On the Logarithmic Frequency Distribution and the Semi- logarithmic Correlation Surface . . . . .	30
<i>Pae-Tsi Yuan</i>	
A Simple Method for Calculating Mean Square Contingency	75
<i>Elmer B. Royer</i>	
A Method of Determining the Constants in the Bimodal Fourth Degree Exponential Function . . . . .	79
<i>A. L. O'Toole</i>	
On the Tchebychef Inequality of Bernstein . . . . .	94
<i>Cecil C. Craig</i>	
On Correlation Surfaces of Sums with a Certain Number of Random Elements in Common . . . . .	103
<i>Carl H. Fischer</i>	
On the Correlation Between Certain Averages From Small Samples . . . . .	127
<i>Allen T. Craig</i>	
On the Degree of Approximation of Certain Quadrature For- mulas . . . . .	143
<i>A. L. O'Toole</i>	
Polynomial Approximation by the Method of Least Squares	155
<i>H. T. Davis</i>	
The Precision of the Weighted Average . . . . .	196
<i>H. Milicer Gruzewska</i>	
On Certain Relationships Between $\beta_1$ and $\beta_2$ For the Point Binomial . . . . .	216
<i>Margaret Merrell</i>	

## CONTENTS OF VOLUME IV – Continued

Note on the Computation and Modification of Moments (Editorial) . . . . .	229
<i>H. C. Carver</i>	
The Extended Probability Theory for the Continuous Variable with Particular Application to the Linear Distribution . . . . .	241
<i>H. P. Lawther, Jr.</i>	
On the Elimination of Systematic Errors due to Grouping . . . . .	263
<i>John R. Abernethy</i>	
On Multiple and Partial Correlation Coefficients of a Certain Sequence of Sums . . . . .	278
<i>Carl H. Fischer</i>	
An Experiment Regarding the $\chi^2$ Test . . . . .	285
<i>Selby Robinson</i>	
On Sampling from Compound Populations . . . . .	288
<i>George M. Brown</i>
