

## ERRATUM, VOLUME 8

James Nelson, Jr., *A common fixed point structure*, pp. 675–682.

Line 9, page 676 should read: AXIOM 1. For all  $x, y \in X$ , there exists a  $P \in \mathcal{P}$  such that  $x, y \in P$ .

Line 10, page 676 should read: AXIOM 2. For  $\phi \neq \mathcal{P}_0 \subset \mathcal{P}$ , then  $\bigcap \mathcal{P}_0 = \phi$  or  $\bigcap \mathcal{P}_0 \in \mathcal{P}$ .
