TABLE OF CONTENTS

Editorial		 •	•	 •	•		. 105
An Application of the Unique Continuation Prope to the Computation of a Fourier Transform Joseph Bennish							. 107
Generating Functions: Applications and Technique Philip M. Tsang and Shing S. So	es		•	 •		•	. 109
Some Properties Related to Dendritic Spaces David John				 •	•		. 116
Mathematics Placement and Assessment at Central Missouri State University Edward Davenport and Marte Carter							. 121
A Nowhere Analytic C^{∞} Function Kent G. Merryfield							. 132
A Quadratic Programming Approach for Solving Discriminant Analysis Problems John Maloney and Yi-Hsin Liu					•		. 139
Problems							. 145
Solutions						•	. 147
Announcements							. 152
