CONTENTS OF SERIES B, VOL. 28, PARTS 1 & 2, 1966

Fitting a class of growth curves..... C. G. Bhattacharya
 Code of professional conduct..... W. Edwards Deming
 Some remarks on statistical control of quality in Japan..... W. Edwards Deming
 Tables for multivariate t distribution..... P. R. Krishnaiah and J. V. Armitage
 Statistical evaluation of pregnancy wastage..... S. P. Mukherjee and D. Banerjee
 Some studies relating to the variation in the rates of consumption and purchase for a few selected food items
 J. M. Sen Gupta, A. Roy and J. N. Taluqdar
 Some studies on the consumption of food and clothing
 J. M. Sen Gupta and A. Sinha
 An experimental study for the estimation of per capita consumption of total cereals in rural households, year
 1960-61..... J. M. Sen Gupta
 Statistical analysis of cross-bedding azimuths from the Kamthi formation around Bheemaram, Pranhita-Godavari
 valley..... Supriya Sen Gupta and J. S. Rao
 An application of a probability model to the study of interlive birth intervals..... K. Srinivasan
 Note on a theorem of M. N. Murthy and V. K. Sethi..... J. Muilwijk

CONTENTS OF SERIES A, VOL. 28, PART 4, 1966

On maximum (information-theoretic) entropy estimation..... M. Dutta
 Sufficiency for selection models..... D. A. S. Fraser
 On the estimation theory of location parameter..... A. M. Kagan
 On a class of multivariate multisample rank-order tests..... Madan Lal Puri and Pranab Kumar Sen
 Incomplete multiresponse designs..... J. N. Srivastava
 Some contributions to the theory of non-normality-I (univariate case)..... K. Subrahmanian

THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

OFFICERS

President:

Theodore E. Harris, Department of Mathematics, University of Southern California, Los Angeles, California 90007

President-Elect:

Herman Chernoff, Department of Statistics, Stanford University, Stanford, California 94305

Executive Secretary:

G. E. Nicholson, Jr., Department of Statistics, University of North Carolina, Chapel Hill, North Carolina 27515

Program Secretary:

Joan Raup Rosenblatt, National Bureau of Standards, Washington, D.C. 20234

Treasurer:

George J. Resnikoff, Department of Statistics, California State College, Hayward, California 94542

Editor:

D. L. Burkholder, Department of Mathematics, University of Illinois, Urbana, Illinois 61803

The purpose of the Institute of Mathematical Statistics is to encourage the development, dissemination, and application of mathematical statistics.

Membership dues including a subscription to the ANNALS of MATHEMATICAL STATISTICS are \$20.00 per year for residents of the United States or Canada and \$12.00 per year for residents of other countries. Special student rates of \$10.00 per year are available to students residing in the U.S. and Canada. Inquiries regarding membership in the Institute should be sent to the Treasurer of the Institute.

Membership in the Institute of Mathematical Statistics is not required of authors of papers in the *Annals of Mathematical Statistics*, and the fact of membership or non-membership is given no weight in the consideration of submitted manuscripts.

Contents (Continued)

Identification of state-calculable functions of finite Markov chains . . .	J. W. CARLYLE	201
Functions of finite Markov chains	FREDERICK W. LEYSIEFFER	206
Geometrical probability and random points on a hypersphere THOMAS M. COVER AND BRADLEY EFRON		213
Consensus of subjective probabilities: a convergence theorem	TORSTEN NORVIG	221
A formula for the probability of obtaining a tree from a graph constructed randomly except for "Exogamous bias"	HWA SUNG NA AND ANATOL RAPOPORT	226
Game value distributions I	DAVID R. THOMAS AND H. T. DAVID	242
Game value distributions II	DAVID R. THOMAS	251
Notes		
On measures equivalent to Wiener measure	THOMAS KAILATH	261
On the Galton-Watson branching process with mean less than one	A. JOFFE	264
Minimum chi-squared estimation using independent statistics	A. D. JOFFE	267
A note on generalized inverses in the linear hypothesis not of full rank A. A. RAYNER AND R. M. PRINGLE		271
A note on nonparametric tests for scale	A. P. BASU AND GEORGE WOODWORTH	274
A note on conservative confidence regions for the mean of a multivariate normal ALASTAIR SCOTT		278
Correction Note		280

MEETINGS OF THE INSTITUTE

CENTRAL REGIONAL - Columbus, Ohio - March 23-25, 1967
EASTERN REGIONAL - Atlanta, Georgia - April 3-5, 1967
WESTERN REGIONAL - Missoula, Montana - June 15-17, 1967
ANNUAL MEETING - Washington, D. C. - December 27-30, 1967

Abstracts should be submitted in duplicate to the Managing Editor, P. L. Meyer, Department of Mathematics, Washington State University, Pullman, Washington, on abstract blanks which may be obtained from him or from any Secretary or Associate Secretary. Abstracts must be received at least 50 days before the first day of the meeting at which they are to be presented, indicating whether presented by title or in person. (Only one contributed paper may be given in person at any one meeting.) They may be printed prior to the publication of the report of the meeting. Ordinarily, each issue will contain those abstracts received at least 75 days before it appears. Abstracts should be limited to 200 words or the equivalent and should avoid displayed expressions and complicated formulae. They can be accepted from non-members of the IMS only if introduced by members. Abstracts must follow the stylistic requests on the abstract blank, or they may be returned.
