

THE ANNALS of MATHEMATICAL STATISTICS

FOUNDED AND EDITED BY H. C. CARVER, 1930-1938

EDITED BY S. S. WILKS, 1938-1949

THE OFFICIAL JOURNAL OF THE INSTITUTE
OF MATHEMATICAL STATISTICS

Contents

	PAGE
Samuel Stanley Wilks, 1906-1964.....	T. W. ANDERSON 1
The Publications of S. S. Wilks.....	T. W. ANDERSON 24
Sequential Test for the Mean of a Normal Distribution III (Small n).....	HERMAN CHERNOFF 28
Sequential Tests for the Mean of a Normal Distribution IV (Discrete Case).....	HERMAN CHERNOFF 55
Maximum Likelihood Estimation for Distributions with Monotone Failure Rate.....	ALBERT W. MARSHALL AND FRANK PROSCHAN 69
Estimates of Linear Combinations of the Parameters in the Mean Vector of a Multivariate Distribution.....	ARTHUR COHEN 78
Main-Effect Analysis of the General Non-Orthogonal Layout With Any Number of Factors.....	DAN BRADU 88
Classical Statistical Analysis Based on a Certain Multivariate Complex Gaussian Distribution.....	C. G. KHATRI 98
A Test for Reality of a Covariance Matrix in a Certain Complex Gaussian Distribution.....	C. G. KHATRI 115
The Distribution of the Generalized Variance.....	O. P. BAGAI 120
Some Direct Estimates of the Mode.....	ULF GRENANDER 131
A System of Inequalities for the Incomplete Gamma Functions and the Normal Integral.....	SHANTI S. GUPTA AND MRUDULLA N. WAKNIS 139
Bayesian Estimation in Multivariate Analysis.....	SEYMOUR GEISSER 150
On Some Asymptotically Non-Parametric Competitors of Hotelling's T^2	PETER J. BICKEL 160
Robustness of the Hodges-Lehmann Estimates for Shift.....	ARNLJOT HØYLAND 174
On the Estimation of Contrasts in Linear Models.....	SUBHA BHUCHONGKUL AND MADAN L. PURI 198
Some New Distribution-Free Statistics.....	C. B. BELL AND K. A. DOKSUM 203
Poisson Limits of Multivariate Run Distributions.....	CAROL F. FUCHS AND H. T. DAVID 215
Discounted Dynamic Programming.....	DAVID BLACKWELL 226
Some Aspects of the Random Sequence.....	D. E. BARTON AND C. L. MALLOWS 236
One-Parameter Exponential Families Generated by Transformation Groups.....	R. BORGES AND J. PFANZAGL 261
Increasing Properties of Pólya Frequency Functions.....	BRADLEY EFRON 272
On the Probability of Large Deviations of the Mean for Random Variables in $D[0, 1]$	J. SETHURAMAN 280
Joint Distributions With Prescribed Moments.....	HOWARD RUMSEY, JR. AND EDWARD C. POSNER 286
Inequalities for the r th Absolute Moment of a Sum of Random Variables, $1 \leq r \leq 2$	BENGT VON BAHR AND CARL-GUSTAV ESSEEN 299

(Continued on back cover)

Vol. 36, No. 1—February, 1965

THE ANNALS OF MATHEMATICAL STATISTICS

Subscription Rates. Current issues are \$20 per volume (six issues of one calendar year) in the U.S. and Canada, \$15 per volume elsewhere. Single issues are \$5.25. Back numbers for all issues up to and including 1956 (Vol. XXVII) are \$12 per volume, \$3.50 per issue; issues from 1957 on are \$20 per volume, \$5.25 per issue; for complete sets, \$200 for the first 25 volumes, \$10 per additional volume purchased at the same time as Volumes I through XXV.

Rates to members of the Institute of Mathematical Statistics are lower (see inside back cover).

Communications concerning **subscriptions, back numbers, payment of dues, membership, changes of address, etc.**, should be addressed to Professor George J. Resnikoff, Treasurer, Department of Statistics, California State College, Hayward, California 94542.

Papers to be submitted for publication should be sent to the Editor, D. L. Burkholder, Department of Mathematics, University of Illinois, Urbana, Illinois 61803. **Abstracts and corrected galley proofs** should be sent to the Managing Editor, P. L. Meyer, Department of Mathematics, Washington State University, Pullman, Washington 99163.

Preparation of manuscripts. Each manuscript should be typewritten, double spaced, with wide margins at sides, top, and bottom, and the original should be submitted with one additional copy, on paper that will take corrections. Dittoed or mimeographed papers are acceptable only if completely legible. Footnotes should be reduced to a minimum, and where possible replaced by remarks in the text, or bibliography at the end of the paper; formulae in footnotes should be avoided. References should follow the new style.

Figures, charts, and diagrams should be professionally drawn on plain white paper or tracing cloth in black India ink twice the size they are to be printed.

Authors are asked to keep in mind the typographical difficulties of complicated mathematical formulae. The difference between capital and lower-case letters should be clearly shown; care should be taken to avoid confusion between such pairs as zero and the letter O, the numeral 1 and the letter l, numeral 1 used as superscript and prime ('), alpha and a, kappa and k, mu and u, nu and v, eta and n, etc. Subscripts or superscripts should be clearly below or above the line. Bars above groups of letters (e.g., $\overline{\log x}$) and underlined letters (e.g., \underline{x}) are difficult to print and should be avoided. Symbols are automatically italicized by the printer and should not be underlined on manuscripts. Boldface letters may be indicated by underlining with a wavy line on the manuscript; boldface subscripts and superscripts are not available. Complicated exponentials should be represented with the symbol exp. In writing square roots the fractional exponent is preferable to the radical sign. Fractions *in the body of the text* (as opposed to displayed expressions) and fractions occurring in the numerators or denominators of fractions are preferably written with the

solidus; thus $(a + b)/(c + d)$ rather than $\frac{a + b}{c + d}$, and ab/cd rather than $\frac{ab}{cd}$.

Authors will ordinarily receive only galley proofs. Fifty reprints without covers will be furnished free. Additional reprints and covers will be furnished at cost.

Mail to the *Annals of Mathematical Statistics* should be addressed to either the Editor, Managing Editor or the Treasurer, as described above. It should not be addressed to Waverly Press.

COMPOSED AND PRINTED AT THE
WAVERLY PRESS, INC., BALTIMORE, MARYLAND, U. S. A.

Second-class postage paid at Baltimore, Maryland
