Contents

December 1958

## Memoirs:

BAYES, THOMAS. Essay towards solving a problem in the doctrine of chances. [Reproduced from Phil. Trans. Roy. Soc. 1763, 53, 370-418]. Studies in the history of probability and statistics. IX. With a biographical note by G. A. Barnard. LESLIE, P. H. AND GOWER, J. C. The properties of a stochastic model for two competing species. TANNER, J. C. A problem in the combination of accident frequencies. DARROCH, J. N. The multiple-recapture census. I. Estimation of a closed population. BULMER, M. G. Confidence intervals for distance in the analysis of variance. FINNEY, D. J. The efficiencies of alternative estimators for an asymptotic regression equation. PATTERSON, H. D. The use of autoregression in fitting an exponential curve. HAIGHT, FRANK A. Two queues in parallel. SHENTON, L. R. Moment estimators and maximum likelihood. SRIVASTAVA, A. B. L. Effect of non-normality on the power function of  $t$ -test. PEARSON, E. S. Note on Mr. Srivastava's paper on the power function of Student's test. BARTON, D. E. AND CASLEY, D. J. A quick estimate of the regression coefficient. ZINGER, A. AND ST-PIERRE, J. On the choice of the best amongst three normal populations with known variances. DRONKERS, J. J. Approximate formulae for the statistical distributions of extreme values. HOOPER, J. W. The sampling variance of correlation coefficients under assumptions of fixed and mixed variates. JOHNSON, N. L. The mean deviation, with special reference to samples from a Pearson Type III population. MERRINGTON, MAXINE AND PEARSON, E. S. An approximation to the distribution of non-central  $t$ . FOSTER, F. G. Upper percentage points of the generalized beta distribution. III. MENDENHALL, WILLIAM AND HADER, R. J. Estimation of parameters of mixed exponentially distributed failure time distributions from censored life test data. MENDENHALL, WILLIAM. A bibliography on life testing and related topics. *Miscellaneous*: Contributions by D. E. BARTON & F. N. DAVID, D. R. COX, EDWIN L. CROW, H. E. DANTELS & M. G. KENDALL, IRWIN GUTTMAN, D. G. KABE, ROY LEIPNIK, RITA MAURICE, T. A. RAMASUBBAN, S. N. ROY & R. GNANDESIKAN, M. SANKARAN, B. V. SUKHATME

*Corrigenda*: N. L. JOHNSON, A. R. KAMAT, J. SAW

## Reviews

## Other Books received

The subscription, payable in advance, is now 54s (or \$8.00), per volume (including postage). Cheques should be made payable to *Biometrika*, crossed "a/c *Biometrika Trust*" and sent to the Secretary, *Biometrika Office* Department of Statistics, University College, London, W.C.1. All foreign cheques must be drawn on a bank having a London agency.

Issued by THE BIOMETRIKA OFFICE, University College, London

# ECONOMETRICA

Journal of the Econometric Society

Contents of Vol. 26, No. 4 - October 1958

HOLLIS B. CHENERY AND TSUNEHICO WATANABE. International Comparison of the Structure of Production  
KENNETH J. ARROW AND LEONID HURWICZ. On the Stability of the Competitive Equilibrium, I  
L. R. KLEIN. The Estimation of Distributed Lags  
IRVING HOCH. Simultaneous Equation Bias in the Context of the Cobb-Douglas Production Function  
JAN TINBERGEN. L'apport de Bernard Chait à l'économétrie  
HAROLD T. DAVIS. Charles Frederick Roos  
MAURICE FRECHET. Letter to the Editor  
REPORT OF THE PHILADELPHIA MEETING

## BOOK REVIEWS:

*The Accumulation of Capital* (Joan Robinson). Review by L. R. Klein *International Economic Papers, No. 6* (International Economic Association). Review by Abba P. Lerner *Insurance and Economic Theory* (Irving Pfeffer). Review by Paul Boschan *Essai sur la théorie générale de la monnaie: économique rationnelle* (A. Aupetit). Review by Léon Dupriez *Tables of the Non-Central  $t$ -Distribution (Density Function, Cumulative Distribution Function and Percentage Points)* (George J. Reskinoff and Gerald J. Lieberman). Review by N. L. Johnson *The United States Capital Position and the Structure of Its Foreign Trade* (M. A. Diab). Review by R. E. Caves *Numerical Analysis* (Zdenek Kopal). Review by H. E. Goheen *Economic Policy: Principles and Design* (J. Tinbergen). Review by Arthur Smithies *Second Symposium in Linear Programming, Volumes I and II* (H. A. Antosiewicz, ed.). Review by Robert Dorfman *Structures et Cycles Economiques, Tome II* (Johan Åkerman). Review by Henri Guitton *Théories des fonctions aléatoires* (A. Blanc-Lapierre and R. Fortet). Review by L. Schmetterer *Selected Papers in Statistics and Probability by Abraham Wald*. Review by Alan Stuart *Análisis de la Demanda: Un Estudio de Econometría* (Herman Wold and Lars Jureen). Review by Angel Alcaide Inchausti *Geographic Differentials of Agricultural Wages in the United States* (Willis D. Weatherford). Review by H. Gollnick *Price, Cost, and Output* (P. J. D. Wiles). Review by J. A. Nordin *Mathematische Statistik* (van der Waerden). Review by J. Pfanzagl *Fondements d'une théorie positive des choix comportant un risque et critique des postulats et axiomes de l'école américaine* (M. Allais). Review by Eberhard Fels

# THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

## OFFICERS

*President:*

J. Wolfowitz, Department of Mathematics, Cornell University, Ithaca, New York

*President-Elect:*

John W. Tukey, Department of Mathematics, Princeton University, (mail to Box 708, Princeton, New Jersey), and Bell Telephone Laboratories, Inc., Murray Hill, New Jersey

*Secretary:*

G. E. Nicholson, Jr., Department of Statistics, University of North Carolina, Chapel Hill, North Carolina

*Treasurer:*

A. H. Bowker, Department of Statistics, Stanford University, Stanford, California

*Editor:*

William Kruskal, Department of Statistics, Eckhart Hall, University of Chicago, Chicago 37, Illinois

The purpose of the Institute of Mathematical Statistics is to encourage the development, dissemination, and application of mathematical statistics.

Membership dues including a subscription to the ANNALS OF MATHEMATICAL STATISTICS are \$10.00 per year for residents of the United States or Canada and \$5.00 per year for residents of other countries. There are special rates for students and for some other classes of members. Inquiries regarding membership in the Institute should be sent to the Secretary of the Institute.

Contents (continued)

Notes:

Bartlett Decomposition and Wishart Distribution.....	A. M. KSHIRSAGAR	239
Some Bounds on the Distribution Functions of the Largest and Smallest Roots of Normal Determinantal Equations.....	RAY MICKEY	242
Note on a Moving Single Server Problem S. KARLIN, R. G. MILLER, JR., AND N. U. PRABHU		243
Distribution of the "Blocks Adjusted for Treatments" Sum of Squares in Incomplete Block Designs.....	A. M. KSHIRSAGAR	246
A Series of Symmetrical Group Divisible Incomplete Block Designs....	D. A. SPROTT	249
Alternative Proof of a Theorem of Birnbaum and Pyke.....	NICOLAAS H. KUIPER	251
Quasi-Ranges of Samples from an Exponential Population.....	PAUL R. RIDER	252
Acknowledgment of Priority.....	RALPH G. STANTON	254
Correction to "Random Orthogonal Transformations and their Use in Some Classical Distribution Problems in Multivariate Analysis".....	ROBERT A. WIJSMAN	254
Abstracts of Papers.....		255
News and Notices.....		257
Report of the Monterey, California Meeting.....		267
Final Editorial Report.....		269
Publications Received.....		269

## MEETINGS OF THE INSTITUTE TENTATIVE SCHEDULE

**EASTERN REGIONAL MEETING—Pittsburgh, Pennsylvania,**

**March 19-21, 1959.**

**CENTRAL REGIONAL MEETING—Cleveland, Ohio, April 2-4, 1959.**

**Abstracts** should be submitted in duplicate to the Editor, preferably on abstract blanks, which can be obtained from the IMS Secretary. Abstracts must be received at least 50 days before the first day of the meeting at which they are to be presented, indicating whether presented by title or in person. (Only one contributed paper may be given in person at any one meeting.) They may be printed prior to the publication of the report of the meeting. Those received by April 30 will appear in the September *Annals*, by July 31 in December, etc. Abstracts should be limited to 200 words or the equivalent, and should avoid displayed expressions and complicated formulae. They can be accepted from non-members of the IMS only if transmitted by members.
